## PROFESSIONAL SUMMARY

"I am a highly qualified Civil Engineer with **10 years** of hands-on experience in the construction industry. Over the course of my career, I have acquired the expertise needed to manage projects, from initial earthworks through to final site handover. I possess strong organizational and leadership skills, with a proven track record of effectively managing resources, schedules, and personnel to meet project objectives in a timely and efficient manner. I am passionate about continuous improvement and always seek out new opportunities to optimize processes. Additionally, I excel in facilitating communication between stakeholders and management to ensure smooth project execution and foster growth."
