PROFILE

I have been delivering comprehensive technical assistance and expert advice to Client in the areas of project planning, development, and implementation of Environmental regulations. The effective preparation and execution of documentation related to environmental and social assessments encompass the development, the formulation of an Environmental and Social Commitment Plan (ESCP), the conduct of an Environmental and Social Impact Assessment (ESIA), and the establishment of Construction Environmental and Social Management Plans (CESMPs) including LEED Documentation along with Environmental Monitoring (Air & Sound quality), Ground Gas Risk Assessment and Monitoring. Oversaw environmental operations during the construction phase to guarantee adherence to Client guidelines and compliance with relevant environmental legal standards as stipulated by government regulations, NCEC and NCVC.

Includes but not limited to

- ✓ Construction Environmental and Social Management Plan (CESMP).
- ✓ Ground Gas Risk Assessment & Ground Gas Monitoring.

EDUCATION

University Of Sargodha

MS Earth&Environmental Sciences (2014 – 2017)

University Of Sargodha

BS Earth&Environmental Sciences (2010 – 2014)

WORK EXPERIENCE

BEC Arabia (Environmental Manager)

Hampton Inn Hotel NC-02(NEOM)

Dec, 2024 to Present

Responsibilities

- Responsible to oversee and undertake the environmental monitoring activities on site (air, water, noise, soil quality monitoring).
- In compliance with the relevant legislation, standards, and guidelines.
- Monitoring and implementation of all Environmental rules. Ensuring compliance with client environmental requirement at site.
- Conduct induction & trainings for the workers on environmental issues and compliance with regulations.
- Conducting site inspections to identify environmental hazards and make recommendations for corrective action.
- Investigating complaints about potential environmental violations and conducting follow-up audits to ensure compliance with established-guidelines.
- To monitor the site operations to ensure these are conducted in accordance with the CESMP.
- Environmental incident reporting, investigation, and root cause analysis for preventive and control measures.
- Make sure that the prevention of spillage is achieved by maintaining the good operational condition of equipment, vehicles, and vessels.
- Identified and managed the environmental and social risks outlined in the ESIA.
- Refraining from harming sensitive marine and coastal ecosystems such as (mangrove forests, coral reefs, and seaweeds).

- ✓ Environmental Monitoring Soil Contamination Report.
- ✓ Environmental law and legislation (Local and International).
- ✓ Environmental compliance evaluation.
- ✓ LEED Reporting and Documentation.
- ✓ Environmental Auditing Project management and Sub-contractor supervision.

APPROVALS

NEOM Approved

CERTIFIED

OTHM Level 7 in Environmental Management

ISO 14001: 2015, Lead Auditor Environmental Management System (IRCA)

NEBOSH IGC1& IGC2

IEMA Environmental Skills for Managers

Level 3 Award in Environmental Principles and Best Practices

BEC Arabia(Environmental Manager)

Neom-Museum and Exhibition CenterProject (NEOM)

Nov, 2023 – Dec, 2024

Responsibilities

- Prepare scope of work and methodology for the contract/proposal to ensure that the methods and other requirements are met.
- Fully complying with the Environmental Law, its Implementing Regulations and the requirements issued by NCEC.
- Facilitating the work of environmental inspectors and specialists from NCEC, National Centre for Wildlife (NCW) or their representatives in field supervision works, giving them access to the project site at any time and furnishing them with any information that they may require.
- Refraining from harming the ecological balance and the geological nature in the area, by cutting down trees and changing routes of floods and rainwater.
- Complying with the environmental management plan, environmental management and monitoring plan, best practices and management techniques that reduce impacts resulting from construction work, including cumulative impacts.
- Fully complying with the provisions of the submitted environmental study including recommendations, specifications, measurements, and control plans of pollution sources and cases of emergency.
- Disposing of waste by a licensed service provider from the competent entities.
- Reporting any polluted areas or pollution cases during the construction period.
- Complying with the international treaties to which the Kingdom Saudi Arabia is a party with regard to the marine environment.
- Plan and execute consultancy projects (Environment Site Assessment, Environment Impact Assessment, Environment Due Diligence, Environmental Audit and Occupational Safety Audit).
- Refraining from harming sensitive marine and coastal ecosystems such as (mangrove forests, coral reefs, and seaweeds).
- To preserve the upper surface of sand at the beach and its invertebrates' components in the project area before beginning the relocation procedure of dredged materials.
- Facilitating environmental inspectors work tasks.
- Develop and promote the Sustainability Services including but not limited to; Green Building, Sustainability Reporting.

ADDITIONAL INFORMATION

Contribute to the development and implementation of Environment management systems, Environment aspects register, air quality

Monitoring strategies, management plans, waste management programs, performance data monitoring.

Given suggestion to improve the best practices to control dust, noise & spill control at site.

Prepared dust suppression logs on weekly basis.

Carry out Environmental audits and reviews on regular basis.

Environmental Incident Reporting, Investigation, recording and developing, implementing control measures accordingly to avoid re-occurrence.

Conducted welfare survey of the staff & workers.

Conducted Ethical recruitment surveys among the workers.

Ensure the proper cleaning of vehicle Tyres to prevent mud before mobilizing into public roads by installation of dry wheel wash.

- Follow the local and international standards and guidelines for the Environmental Studies and/or audits.
- Train and supervise the team for the environmental survey and audits.

BEC Arabia (Environmental Manager)

Sindala Island Project (NEOM)

Oct, 2022 – Nov, 2023

Responsibilities

- Organize training sessions and enhance awareness about environmental performance, in addition to carrying out environmental audits and evaluations.
- Oversee and instruct the team responsible for conducting environmental surveys and audits.
- Contribute to the development and implementation of Environment management systems, Environment aspects register.
- Adhering completely to the stipulations outlined in the submitted environmental study, including its recommendations, specifications, measurements, and pollution source control plans, as well as emergency response protocols.
- Provide consulting services to assist clients with the proper analytics, testing, monitoring and reduction of environmental risk.
- Adhering to the environmental management plan, the environmental management and monitoring plan, as well as implementing best practices and management techniques that mitigate the impacts associated with construction activities, including cumulative effects.
- Adherence to all environmental regulations is essential, including the management of spill control, maintaining up-to-date Material Safety Data Sheets (MSDS) for various chemicals, and providing COSHH spill response training to the team.
- Ensured that all accidents and incidents properly investigated and reported.
- Compliance with hazardous storage area regulations, implementation of a pest control management system, and effective waste segregation and management practices are essential.
- Provide training and awareness on environmental performance,
- Conduct environmental audits and assessments, monitor noise levels in various areas, evaluate dust levels at nearby sensitive receptors, and ensure compliance with all environmental

Implementing waste management and pollution control activities.

Execute daily site surveys for environmental compliances.

Evaluate potential environmental risks and develop mitigation plans.

Preparing daily, weekly, monthly monitoring reports and establishing strong liaisons with clients.

Environmental training and arranging Workshops.

Conducted welfare survey of the staff & workers.

Conducted Ethical recruitment surveys among the workers.

Conduct spill drills & Prepared spill drill reports.

Prepared waste management plan in order to implement waste collection & disposal properly.

Prepared de-watering plan & implement on-site requirements.

SCAN TO VERIFY

We had conducted the interview of **Muhammad Saqib Nawaz**, for the position of Environmental Specialist @ **BEC Laydown(LD 54-1) in NEOM Bay Logistics Park (NBLP)** and following are our comments after his evaluation.

Upon careful review of his profile and post interview session, we are considering him for the position of dedicated **Environmental Specialist**. Please ensure he is familiar with laydown facility in NBLP, NEOM environmental protocols, procedures & required documentation. We believe that his contributions will greatly enhance the environmental management compliance at your facility.

Candidate Name	Designation	Status	Comments
Muhammad Saqib Nawaz	Environmental Specialist	Code - B	Approved

Note: **Muhammad Saqib Nawaz** is only dedicated for @ **BEC Laydown(LD 54-1) in NEOM Bay Logistics Park (NBLP)** and he is not entitled to work on any other site without prior intimation and replacement. Communicate his joining date and share his official email ID for future correspondence and site inspection schedule.

Best Regards
