📍 Location: Jordan

(Available to work in Qatar with NOC and valid Qatari Driving License)

KEY ACHIEVEMENTS:

- Assisted in the successful execution of micro tunneling projects in Al-Wakra and Al-Wukair, contributing to the completion of over 3 km of tunnel sections.
- Participated in troubleshooting and resolving on-site technical issues, helping to reduce downtime and improve operational efficiency.
- Supported logistics and equipment transportation coordination, ensuring timely and cost-effective project execution.

LANGUAGES

- Arabic (Fluent)
- English (Proficient)

TRAINING COURSES

- Working Safely at Heights | Feb. 2022
- Safety in Confined Space entry | Feb. 2022
- Hole Watch | Aug. 2022
- Confined Space Entrant | Aug.2022

ABDULAZIZ QURANFOLEH

Micro Tunneling Engineer

EDUCATION

Bachelor of Science in Software Engineering,
Philadelphia University | Jordan

WORK EXPERIENCE

Micro tunneling Engineer

Tunnels by Masters Constructions W.L.L. | Qatar & Saudi Arabia | (3 Years)

Coordinated drilling operations using micro tunneling machines (600-3000mm diameter) such as AVN 1200 and AVN 1800.

Developed project schedules and monitored progress for water supply, sewage, and flood prevention projects in collaboration with main contractors and subcontractors. Ensured compliance with OSHA safety standards, reducing equipment downtime by 20% through technical troubleshooting.

Supervised on-site teams of 10+ technicians for key projects, including:

Al Madinah Water Supply Network (400m length, 1200mm diameter).

Doha Sewage Networks (1400m length, 1000mm diameter).

Prepared daily/weekly progress reports and presented performance metrics to senior management.

SKILLS

- ✓ Micro tunneling & TBM Operations
- ✓ Project Coordination
- ✓ Risk Assessment
- ✓ Geotechnical Analysis (Basic)
- ✓ Report Preparation
- ✓ Problem-Solving
- ✓ Team Collaboration
- ✓ Project Coordination & Scheduling
