Site Engineer / Safety Engineer 7/2021 - 3/2024
M/S GH Rasool Dar

Worked flexibly to meet varying site and project requirements. Completed site surveys, marked locations and oversaw construction of various projects. Supervised and monitored project subcontractors and labour teams. Reviewed construction activities for compliance with health and safety requirements. Coordinated engineers and construction professionals to meet varied project demands. Conducted site surveys ahead of additional works, speeding up construction processes. Procured and oversaw construction materials for assigned projects. Generated reports detailing site activities, incidents and resolutions. Audited health and safety procedures for full compliance. Responded quickly to reactive and emergency repairs limiting projects delay.

Site Engineer 9/2020 - 7/2021
DS PIPELINE PROJECTS PVT.LTD

Conducted fault-finding and repairs on gas appliances, fixing gas leaks and other issues to restore functionality. Effectively diagnosed and identified faults with gas systems by conducting performance tests and inspections. Surveyed sites, collected measurements and assessed project conditions. Increased site efficiencies by observing operations and recommending project changes. Enforced site safety rules, minimising work-related accidents and injuries. Verified project completion and handed over completed structures to clients, fulfilling delivery obligations.

Site Engineer 8/2018 - 9/2020
Star Construction

Ordered and tracked delivery of construction materials and supplies from vendors. Oversaw quality control and health and safety matters for construction teams. Measured and accurately processed materials to minimise wastage. Record daily events and activities in site diary to evaluate process and improve productivity. Assessed project requirements against current EHS standards and practices.
