About Me

I am a versatile and results-driven health and safety professional with over five years of progressive experience in Saudi Arabia and Pakistan. I bring proven expertise in policy implementation, hazard monitoring, and worker safety management across major projects in infrastructure, buildings, earthworks, and construction industries. I have extensive experience in risk assessment assistance, PPE compliance, and equipment inspections, working with world-renowned consultants and contractors to deliver expert advice, leadership, and safety standards development. Committed to promoting environmental sustainability, I specialize in training programs, hazard awareness, and SSHP implementation, fostering a culture of safety excellence through toolbox meetings, emergency drills, and job hazard analysis.

OBJECTIVE

I am a dedicated Health, Safety, and Environment professional with significant experience in ensuring compliance with health and safety regulations. My commitment to reducing work-related injuries, conducting thorough risk assessments, and providing comprehensive employee training has allowed me to achieve a much safer work environment. I am skilled at inspecting processes, developing safety protocols, and leading environmental initiatives.

LANGUAGES:

English, Arabic, Urdu, Pashto, Turkish

PERSONAL STRENGTH:

Communication Skills, Confident, Positive Attitude and fast learner

PERSONAL SKILLS

Incident Reporting & Documentation
Hazard Identification & Risk Assessment
Safety Audits & Inspections
Regulatory Compliance & Policy adherence
Emergency Response Planning
Training, Awareness & Safety Inductions
Incident Investigation & Root Caus Analysis

Leadership & Team Coordination
Workplace Safety Monitoring
Behavior-Based Safety (BBS)

Technical Proficiency (MS Office)
Safety Communication & Reporting

COMPUTER SKILLS

Microsoft Office
(MS word MS Excel Power point).
Social Media and Web Skills.
Writing Skills.
Email.

Safety Engineer Roles and Responsibilities

A Safety Engineer is responsible for designing and implementing safety measures to prevent workplace accidents, ensure compliance with safety regulations, and enhance overall safety performance in an organization.

1. Safety System Development & Implementation

- Develop and implement safety management systems (SMS).
- Establish workplace safety policies, procedures, and best practices.
- Ensure compliance with OSHA, NFPA, ANSI, ISO 45001, and other safety regulations.

2. Risk Assessment & Hazard Control

- Conduct risk assessments, job hazard analysis (JHA), and job safety analysis (JSA).
- Identify potential hazards and implement engineering and administrative controls.
- Develop preventive measures to minimize workplace risks and injuries.

3. Workplace Safety Inspections & Audits

- Conduct regular site inspections and safety audits.
- Ensure compliance with local, national, and industry-specific safety standards.
- Identify non-compliance issues and recommend corrective actions.

4. Incident Investigation & Root Cause Analysis

- Investigate workplace accidents, injuries, near misses, and unsafe conditions.
- Perform root cause analysis (RCA) and recommend corrective and preventive actions (CAPA).
- Maintain detailed safety reports and documentation for management and regulatory bodies.

5. Safety Training & Employee Awareness

- Develop and conduct safety training programs for employees and management.
- Train employees on fire safety, chemical handling, emergency response, and PPE usage.

- Organize toolbox talks, safety briefings, and awareness campaigns.

6. Emergency Preparedness & Response

- Develop and implement emergency response plans (ERP).
- Conduct fire drills, evacuation drills, and first-aid training.
- Ensure emergency equipment (fire extinguishers, alarms, exits) is maintained and functional.

7. Safety Equipment & PPE Compliance

- Ensure proper selection, use, and maintenance of personal protective equipment (PPE).
- Conduct regular PPE inspections and compliance checks.
- Recommend safety improvements based on PPE effectiveness.

8. Health & Occupational Safety

- Monitor air quality, noise levels, ergonomics, and chemical exposure in the workplace.
- Develop and enforce workplace hygiene and occupational health programs.
- Ensure availability of first-aid stations, medical response teams, and employee wellness programs.

9. Compliance & Documentation

- Maintain records of safety audits, inspections, risk assessments, and training logs.
- Prepare safety performance reports for internal and external stakeholders.
- Ensure certifications, permits, and regulatory documents are up to date.

10. Continuous Improvement & Safety Innovation

- Research and implement new safety technologies and best practices.
- Work with engineering and operations teams to integrate safety into daily activities.
- Promote a culture of continuous improvement and proactive safety management.
