Professional Profile

Experienced and results-driven Warehouse and Logistics Manager with over 15 years of progressive success in warehouse operations, inventory control, logistics coordination, and supply chain optimization. Demonstrated expertise in fixed asset tracking, contract management, and the execution of high-impact projects in both public and private sectors. Skilled in managing large-scale warehouse operations, conducting inventory audits, asset tagging, and ensuring efficient flow of materials and equipment across all logistics stages.

Professional Experience

Inventory and Asset Management Specialist - Dar Al Qiyas for Valuation

2-2023 TO 5-2025

Riyadh, Saudi Arabia

- Led asset management tasks across multiple sectors, including projects for government institutions and ministries, as well as private sector projects. Managed assets and buildings for more than 14 government ministries and several private projects covering all assets nationwide, totaling over 7 million assets. Responsible for asset management planning and inventory auditing for these institutions.
- Specialized in inventory, management, and valuation of the following fixed assets:
- Furniture of all types
- Machinery and equipment of all types, including technological and industrial assets
- Mining equipment and heavy industrial machinery
- Water treatment and wastewater systems
- Prepared inventory and asset documentation to support audit processes and financial valuation
- Coordinated with engineering teams and auditors to ensure accurate and high-quality inventory and valuation execution across multiple sites, resulting in precise and reliable data reports

Inventory, Warehouse, and logistics Manager- *The Egyptian Construction Company*

2-2014 TO 8-2022

Cairo, Egypt

- Ensured the quality and safety of products, and applied proper storage methods
- Monitored inventory levels and delivery schedules to ensure timely and accurate fulfillment
- Oversaw contract implementation and managed timelines for product delivery and customer requirements
- Supervised the logistics support team to streamline operations
- Negotiated and contracted with suppliers while directing the procurement team to optimize sourcing strategies

Warehouse Supervisor & Procurement Officer - *Cleopatra Hotel*

3-2009 TO 1-2014

Cairo, Egypt

- Managed warehouse operations with a strong focus on quality control for incoming and outgoing materials
- Led inspection and audit processes while coordinating closely with the procurement department and suppliers
- Improved inventory accuracy and enhanced space utilization efficiency
- Researched suppliers, conducted price comparisons, and selected the most suitable vendors

Education

Diploma in Total Quality Management (TQM)

2016

Al Tebbin Institute for Mineral Studies – Ministry of Trade and Industry, Egypt

Bachelor's Degree in Quality Control

2007

Workers University – Arab Republic of Egypt

Achievements

- Successfully led the evaluation process of over 7 million fixed assets across major projects in healthcare, industrial zones, and agriculture sectors.
- Developed a standardized protocol for fixed asset tagging and inventory, officially adopted by multiple government entities.
- Played a pivotal role in tagging and classifying mechanical assets within a national infrastructure initiative covering more than 300 operational sites.
- Contributed effectively by applying a hybrid management approach to ensure the success of large-scale projects.
- Achieved over 25% cost reduction and improved supply chain efficiency through strategic supply chain organization and optimal vendor selection.
- Streamlined logistics operations, significantly reducing delivery and receipt lead times.
