### PROFILE

#### Project Engineer

#### MBL Company | Jeddah | 2019 – Present

Experienced Project Engineer with 6+ years in construction across Saudi Arabia, specializing in fit-out and finishing works, renovations, piling, dredging, and reclamation. At MBL Company, I've led fast-track projects, coordinating with subcontractors and internal teams to meet tight deadlines and maintain high-quality standards.

Key skills include:

- Managing BOQs, cost estimation, and resource allocation
- Tracking project progress and addressing issues for timely delivery
- Overseeing site activities and ensuring safety and quality
- Collaborating with consultants such as HESCO, DAR, and AECOM

### Work Experience Project

#### Site Engineer

#### **Al Jubail, Saudi Arabia – Dareen Dredging, Reclamation, and Piling (05/2019-02/2020)**

- Led offshore piling operations, ensuring precision and adherence to safety standards.
- Managed dredging and reclamation activities, optimizing project timelines and ensuring environmental compliance.
- Collaborated with subcontractors to ensure timely execution of tasks and efficient resource management.

#### **Umluj, Saudi Arabia – Private Island 2020 (02/2020 – 06/2020)**

- **Prepared Bill of Quantities (BOQ)** for materials, ensuring accuracy in cost estimation and material procurement.
- **Coordinated with subcontractors** to manage orders, ensuring timely delivery of materials and handling payments efficiently.
- Oversaw the **quality and timely execution of activity**, ensuring compliance with project specifications.

#### **Sindala Island, Saudi Arabia – NEOM Red Sea Week (06/2020 – 11/2020)**

- Managed finishing works, including tiling, painting, insulation, and other final construction details, ensuring high-quality standards.
- Actively resolved snags and Non-Conformance Reports (NCRs) from the consultant, implementing corrective actions to ensure project compliance and continuity.
- Collaborated with the team to maintain project schedules, ensuring timely completion of all finishing tasks.

## Site Manager

### **Private Villas CM Villa - Jeddah (12/2020 - 06/2021)**

- Managed renovation and finishing works, including tiling, painting, insulation, and more.
- Developed BOQs, liaised with subcontractors, and coordinated project timelines and budgets.
- Oversaw the completion of high-quality interior design and finishes for the villa.

### **Private Villa TS Complex - Jeddah (06/2021 - 10/2021)**

- Supervised concrete works, steel structure installation, and finishing works for villa, pool, and infrastructure.
- Led roof insulation, ensuring efficient installation and cost-effective solutions.
- Ensured all tasks were completed on schedule and within budget, maintaining high quality.

### **Private Villa HZ Palace - Jeddah (10/2021 - 02/2022)**

- Managed concrete and steel works for the villa, overseeing all phases of construction.
- Directed finishing works, including tiling, paint, and insulation.
- Ensured that work met all safety regulations and project specifications.

## Project Engineer

### **Alshafa Palace, Saudi Arabia - Taif (02/2022 - 03/2022)**

- Led **finishing works** including tiling, painting, insulation, and final touches to ensure the project met high-quality standards.
- Collaborated closely with subcontractors to ensure the timely and accurate execution of all finishing tasks.
- Conducted regular site inspections to monitor progress and resolve any emerging issues.

### **Private Villa BSA, Saudi Arabia - Jeddah (03/2022 - 06/2022)**

- Managed concrete works for the villa structure, ensuring compliance with design specifications and safety standards.
- Oversaw finishing works including tiles, painting, insulation, and other detailing to achieve a high-end finish.
- Directed landscape and hardscape works, ensuring the aesthetic and functional elements of the project were completed on time.

## Project Coordination

- **SI Project (Ongoing since 06/2022)**: Managed client requirements, site issues, and commercial tasks.
- **RAHALA Project (09/2022 - 12/2022)**: Managed client requirements, site issues, and commercial tasks
- **Al Shatea Palace (03/2023 - 07/2023)**: Managed client requirements, site issues, and commercial tasks

## Project Engineer

### **Private Villa MGB, Saudi Arabia - Jeddah (09/2023 - 12/2023)**

- Oversaw **concrete works** for the villa, ensuring structural integrity and compliance with project specifications.
- Managed **finishing works** including tiling, painting, insulation, and other detailed tasks, delivering a high-quality final product.
- Directed **landscape and hardscape work**, ensuring both aesthetic and functional elements were completed on schedule and within budget.

### **Project Manager (12/2023 - 03/2024)**

#### **Private GYM (Jeddah)**

- Prepared the BOQ and secured client approval for materials selected to meet project standards.
- Directed steel structure work with cement board, insulation, painting, and tiling.
- Led **finishing works** including tiling, painting, insulation, and final touches to ensure the project met high-quality standards.
- Oversaw progress tracking, quality control, and timely resolution of site issues.
- Collaborated with consultants and suppliers to ensure compliance with project specifications and deadlines.
