SUMMARY

Versatile and detail-oriented Civil Engineer with over 11 years of experience in the construction industry, including 3+ years in highway engineering and 8+ years in building construction and quality assurance. Proven track record in supervising roadworks, implementing MOT standards, and managing infrastructure projects across Saudi Arabia. Extensive background in structural execution, finishing works, and maintaining stringent quality control on commercial and residential buildings. Skilled in interpreting technical drawings, coordinating with multidisciplinary teams, and ensuring compliance with project specifications, safety standards, and timelines. Adept at using engineering software such as AutoCAD, QMS and Primavera P6 to support both site execution and project documentation.
