

RASHAD HASAN

ARCHITECT (Design manager)

ABOUT ME

A highly experienced architect with 12 years of diverse professional practice in Riyadh, Saudi Arabia, spanning across contracting, consulting, and design supervision.

Currently serving as the Director of an engineering consultancy office, I bring a strong track record in project delivery, team leadership, and multidisciplinary coordination. My career reflects a continuous pursuit of technical excellence and creative innovation. I am now seeking a distinguished opportunity to further develop my professional and financial growth, contribute at a higher level, and engage in challenging projects that push the boundaries of architectural design and management.

EXPERIENCE

Luminous Vision Consultants

ARCHITECT (Design manager) Riyadh 2022-PRESENT

Key Responsibilities:

- **Architectural Leadership & Signature Design:** Personally responsible for designing high-profile and signature projects, with a strong focus on developing outstanding architectural façades that balance aesthetics and functionality. Oversee and review all design outputs to ensure compliance with technical standards and regulations.
- **Team & Project Management:** Lead and manage architectural teams throughout all project phases. Ensure timely delivery of design updates while maintaining alignment with budget, quality standards, and project objectives.
- **Client & Stakeholder Coordination:** Serve as the main point of contact with clients to gather requirements, present design proposals, and implement changes based on feedback. Collaborate with structural, electrical, and mechanical teams to achieve integrated and cohesive project results.
- **Studio Operations & Staff Development:** Oversee day-to-day operations of the design studio, including budgeting, contract oversight, and resource planning. Mentor junior staff, promote a culture of continuous improvement, and implement processes that enhance communication and team performance.

EXPERIENCE

Ayedh Engineering Consultants

ARCHIECT (Design manager)

Riyadh 2015-2022

Key Responsibilities:

- **Architectural Design & Detailing:** Personally handle all architectural designs, including façade development, sections, and full architectural detailing, ensuring cohesive and high-quality outputs aligned with project vision.
- **Permit Management & Authority Coordination:** Lead the preparation and submission of all required drawings and documentation for building permits, and follow up with various municipalities and governmental authorities to ensure timely approvals.
- **Project & Team Leadership:** Manage design teams across all project stages, ensuring timely delivery, design integrity, and adherence to budgets and quality standards.
- **Studio Management & Staff Development:** Oversee studio operations including budgeting and resource planning; mentor junior staff, and implement process improvements to boost performance, communication, and innovation.

Saudi Bin Laden Group(SBG)

ARCHIECT.....,

Riyadh 2014-2015

Key Responsibilities:

- Successfully prepared and delivered the architectural shop drawings for Neuroscience Hospital, ensuring accuracy and completeness in alignment with project specifications. Coordinated directly with the site consultant for review and secured full approval of the drawings, contributing to the smooth progression of on-site construction activities.

General Draftsman.....,

Riyadh 2010-2011

- Successfully prepared and delivered the architectural shop drawings for Tower 4.02, ensuring accuracy and completeness in alignment with project specifications. Coordinated directly with the site consultant for review and secured full approval of the drawings, contributing to the smooth progression of on-site construction activities.

Mantech Engineering Consultant

ARCHIECTURAL DRAFTSMAN.....,

Amman 2009-2010

- Contributed to the development of detailed architectural shop drawings and 3D visualizations for the Talabay project in Aqaba and the Jaraboulli project in Libya, ensuring high-quality deliverables aligned with design intent and project requirements.

Conin Consultant

ARCHIECTURAL DRAFTSMAN.....,

Amman 2008-2009

- Developed architectural drawings—including plans, elevations, sections, and detailed components—along with 3D visualizations for key projects such as Madain, Bab Al Bahr, and Deyar in the UAE.
