Summary

Certified HSE Professional with 5+ years of experience in occupational health and safety, risk assessment, and regulatory compliance (OSHA & Saudi standards). Proven ability to reduce workplace hazards, enhance safety culture, and maintain 100% compliance across industries including oil & gas, solar energy, construction, facilities management, and NDT. Expertise in incident investigation, emergency response planning, and safety training programs.

Experience

Safety Officer

Salah Zuhair Al-Shamrani Holding Company KSA, (2024 - 2025)

- Enforced **OSHA standards** and company protocols, maintaining a **100% accident-free record** across operations.
- Conducted **weekly toolbox talks**, training **300+ employees** on **PPE, hazard identification (HAZID), emergency response, and lockout/tagout (LOTO)** procedures.
- Improved **evacuation drill efficiency by 60%** through revised contingency planning and staff drills.
- Identified and resolved **30+ critical risks** (fall hazards, electrical safety, equipment malfunctions) via **Job Safety Analysis (JSA), near-miss reporting, and corrective action plans**.
- Maintained **100% accurate records** for incidents, inspections, permits, and **safety audits** (internal and regulatory).
- Developed and delivered **daily/weekly safety briefings** to cross-functional teams, reinforcing best practices.
- Performed routine checks on **power tools, fire extinguishers, grounding systems, and substation/overhead line safety**, ensuring compliance with **NFPA 70E and ANSI standards**.

Safety Officer

SSEM, KSA (July 2021 - June 2023)

- Achieved **5-star safety documentation ratings** and **reduced workplace incidents 30%+** through tailored orientations and audits.
- Developed **client-aligned safety strategies**, ensuring compliance and supporting project success.
- Conducted **safety training, toolbox talks, and inspections**, improving workforce awareness and PPE compliance.
- Fostered a **proactive safety culture**, minimizing hazards and ensuring adherence to OSHA standards.

Safety Supervisor

Red Sea Global, KSA Dec 2023 - Mar 2024

- Developed and enforced project-specific HSE plans for construction projects.
- Conducted risk assessments, hazard identification, and implemented mitigation strategies.
- Performed site inspections to ensure compliance with HSE regulations and safety standards.
- Delivered HSE training to staff and subcontractors, fostering a strong safety culture.
- Designed and executed emergency response plans, including drills and evacuation procedures.
- Investigated incidents, analyzed root causes, and implemented corrective actions.
- Maintained accurate HSE documentation, including incident reports and inspection records.
- Ensured compliance with local and international HSE regulations.
- Promoted proactive safety reporting and continuous improvement initiatives.
