

Mohammed Bin Sulaiman Alsubaie

Electrical Power and Machines Engineering

Phone: +966 56 944 8117 | Email: msubaie07@hotmail.com

Riyadh, Saudi Arabia

OBJECTIVE

I am a graduate in Power and Electrical Machines Engineering with strong interpersonal skills. I am quick to learn and eager to contribute to the company's growth.

ASPIRATIONS

- Develop my experience and skills to stay competitive in the field.
- Keep up with technological advancements in the work environment.
- Disseminate knowledge and highlight the role and importance of the organization I belong to.

EDUCATION

Technical and Vocational Training Corporation

2025

- **Bachelor's in Technical Engineering:**

Specialized in Applied Power and Electrical Machines, studying subjects related to power systems, electrical machines, and circuit design.

- **The graduation project:**

focused on the maintenance of the lighting system at the Technical College.

2022

- **Diploma in Renewable Energy:**

I specialized in renewable energy technologies such as solar energy, wind energy, energy storage systems, and their integration with electrical grids.

WORK EXPERIENCE

Consultant – Kharita Al-Enuma Engineering Consultancy
From 26/01/2023 to 11/03/2023

- Supervised Riyadh Municipality projects related to the maintenance of stations and lighting networks.
- Monitored and directed teams in the maintenance of non-working street lights.
- Conducted regular inspections of the stations to ensure their efficiency.
- Implemented lighting projects in areas that lacked service.
