

AHMED ABOZEID

Civil Engineer – Technical Office & Site Supervision

📍 Jeddah, Saudi Arabia | 📞 +966 50 368 7224

✉ Ahmedabozeid1357@gmail.com

Nationality: Egyptian | Date of Birth: 5 May 1994

SUMMARY

Detail-oriented and highly skilled Civil Engineer with over 8 years of experience in both technical office work and site supervision across hospitals, infrastructure, and industrial projects across Saudi Arabia and Egypt. Skilled in AUTOCAD, Revit, Sap2000, and Primavera P6. Proven track record of successfully completing projects on time and within budget while ensuring adherence to engineering standards and safety regulations. Experienced in preparing subcontractor and client invoices. Adept at managing multidisciplinary teams and delivering high-quality projects on schedule and within budget.

EDUCATION

Bachelor of Civil Engineering – Assiut University, Egypt – 2017

Grade: Very Good | Graduation Project (Concrete Structures): Excellent

EXPERIENCE

Civil Engineer – Technical Office & Site Supervision

Jeddah, Saudi Arabia

May 2024 – Present

- **Marble Factory Project – Khulais, Jeddah**

- Coordinated with contractors and suppliers throughout the construction phase, ensuring accurate scheduling and timely execution.
- Oversaw daily site activities, ensuring proper leveling, grading, and compliance with technical specifications.
- Prepared shop drawings, quantity take-offs, BOQs, and cost analyses to meet project budget constraints.
- Liaised with local authorities for permit acquisition and inspection approvals.
- Achieved a 10% material cost saving through optimized procurement and analysis.

- **Al-Mohammadia Hospital – Dr. Sulaiman Al-Habib, Jeddah**

- Prepared and reviewed contractor invoices, client billing, and BOQs.
- Developed shop drawings and project schedules using AutoCAD and related tools.
- Supervised site operations, coordinated manpower and materials, and ensured work met safety and quality standards.

Additional Involvement:

- Experience in bidding and tendering processes for construction projects in KSA.
- Proficient user of the Saudi government procurement platform (Etimad).

Consultant Engineer

Spin Consulting Office – Cairo, Egypt
June 2022 – May 2024

Worked extensively on government-funded projects across Egypt in collaboration with ministries and public authorities, covering healthcare, housing, infrastructure, and security sectors.

Key Government Projects:

- **Security Monitoring Building – Sharm El Sheikh (Ministry of Interior)**
- **Heritage Village Project – Sharm El Sheikh (Public Sector Tourism Development)**
- **Om El Masryeen Hospital – Giza (Ministry of Health)**
- **Tanta Oncology Institute – Tanta (National Cancer Institute)**

Private Projects:

- **Renovation of Al-Gafy Hotel – Dahab**
- **Maintenance of Hotel Compound – Dahab**

Duties & Achievements:

- Managed budgets exceeding 100 million EGP, reducing costs by approximately 15% through supplier coordination.
- Supervised teams of up to 12 engineers and technicians, delivering full design packages ahead of schedule.
- Reviewed and approved technical submissions, shop drawings, and as-built documentation.
- Coordinated civil, architectural, and MEP activities to ensure technical compliance.
- Resolved on-site technical issues, handled reporting, and tracked contract variations and site progress.
- Delivered multiple public-sector projects within deadlines and in line with governmental quality standards.

Site Engineer

Social Housing Project – Salam Misr, North Sinai

Dec 2020 – May 2022

- Supervised daily construction operations, ensuring adherence to structural drawings.
- Managed logistics of materials, manpower, and equipment.
- Prepared BOQs, progress reports, and safety inspection plans.

Site Engineer

Sewage Infrastructure Projects – Egypt

Aug 2019 – Dec 2020

- Oversaw trenching, pipe laying, manhole construction, and backfilling operations.
- Verified material quality and compliance with governmental standards.
- Maintained daily logs, submitted site progress reports, and coordinated with utility providers.

Site Engineer

New Aswan Social Housing – Egypt

Sep 2017 – Aug 2019

- Supervised concrete works including foundations, slabs, and blockwork.
- Monitored contractor performance and documented daily site activities.
