📍 Riyadh, Saudi Arabia | 📄 Visa Status: Valid Work Visa and Iqama

PEC Registration: MECH/056633

CAREER OBJECTIVE.

To obtain a good position in a good stable organization with diligent environment wherein I can utilize my knowledge, experience and ability to enhance my career objective and broaden my horizons.

EDUCATION

- Bachelor of Science in Mechanical Engineering – University of Lahore, Pakistan (2019 – 2023)
- F.Sc. (Pre-Engineering) – Punjab Group of Colleges, Pakistan (2017 – 2019)

SKILLS

- **Technical Skills:**
 - Ability to read and interpret engineering drawings
 - Planning and scheduling of mechanical operations
 - Quality control and compliance assurance
 - Supervision of plumbing, fire alarm, and mechanical systems
 - Maintenance and troubleshooting of pumps, compressors, and diesel generators

- **Software Proficiency:**
 - Microsoft Office (Excel, Word)
 - AutoCAD
- **Soft Skills:**
 - Strong teamwork and collaboration abilities
 - Leadership and site supervision
 - Effective communication and coordination
 - Problem-solving and adaptability

PERSONAL INFORMATION

- Nationality: Pakistani
- Date of Birth: 27-Jan-2001
- Languages: English, Urdu
- Availability: Immediately

ACADEMIC EXPERIENCE (FYP Project)

Design and Development of Electric and Human-Powered Bicycle

- Designed and developed a hybrid bicycle that integrates electric propulsion with traditional human power.
- Focused on sustainable mobility and energy efficiency principles.
- Gained experience in system integration, mechanical design, and practical engineering implementation.

EXPERIENCE PROFILE.

- Project: Construction of tse network for green riyadh program group-6
- Employer: Yuksel Saudia Co. Ltd.
- Client: Royal Commission for Riyadh City
- Duration: From March 2024 to till date.
- Designation: QA/QC Engineer

- Project: KAFD Cluster-J01(P405,503,504,505&506)
- Employer: Saudi Arabian Baytur Company Ltd.
- Client: KAFD
- Duration: Sep 2023 to Mar 2024
- Designation: QA/QC Engineer

Duties & Responsibilities:

- Develop and implement quality assurance plans and procedures in accordance with project specifications, codes, and standards.
- Ensure all materials and mechanical systems comply with design requirements and industry standards.
- Coordinate with engineering, procurement, and construction teams to maintain quality throughout the project lifecycle.
- Review project specifications, drawings, and ITPs (Inspection and Test Plans).
- Inspect mechanical equipment, piping, welding, HVAC systems, fire fighting systems, etc., for compliance with project standards.
- Monitor and supervise installation and fabrication activities to ensure conformity with quality standards.
- Conduct and witness tests such as hydrostatic testing, pneumatic testing, and NDT (Non-Destructive Testing).
- Prepare and maintain inspection reports, checklists, and NCRs (Non-Conformance Reports).
- Verify calibration and proper functioning of tools and measuring instruments used in inspections.
- Maintain complete and accurate QA/QC documentation such as inspection reports, welding logs, material certificates, and test records.
- Prepare and submit daily, weekly, and monthly quality reports to management.
- Participate in client and third-party inspections and prepare related reports.
- Liaise with project managers, site engineers, consultants, and subcontractors regarding quality issues.
- Provide technical support and guidance to site personnel on QA/QC practices.
- Assist in the training and mentoring of QA/QC staff and field technicians.
- Identify areas for improvement in the QA/QC process and recommend corrective and preventive actions.
- Support root cause analysis of quality issues and ensure closure of corrective actions.
