Osayd Khurayshi

Objective

Motivated Project Engineer with a Bachelor's Degree in Mechanical Engineering. Skilled in planning, coordinating, and executing engineering projects. Adept at assessing and improving component designs to increase efficiency and drafting technical reports to keep track of improvements and changes. Equipped with Project Management Professional (PMP)® Certification, Looking to contribute towards a streamlined work process and efficient risk management by leveraging practiced project management methodologies. Seeking to join a growing organization to optimize technical workflows, increase efficiency, and facilitate the attainment of collective goals.

Education

Bachelor's Degree of Applied Science in Mechanical Engineering

King Fahd University of Petroleum and Minerals | 2022

Grade: Very Good

Experience

Project Engineer

SAMA Construction for Trading and Contracting | Jun 2022 - Present

- Conduct regular meetings with clients to ensure clarification and meet specific requirements in a timely manner.
- Delegate tasks to team members according to their individual skill sets, experience, and abilities to ensure efficient completion of the project.
- Perform quality control tasks on budgets, schedules, plans, and personnel performance and report on the project's status.
- Establish field test methods for monitoring the quality of those tests.
- Ensure that project operations are in sync with design specifications, submittals, and project plans and that the project is delivered on time and under budget.
- Make a maintenance schedule for the tunnel machine, ensure its operation, and check it.
- Verify spare parts to ensure they meet requirements and standards, and communicate with Herrenknecht for tunnel machine technical support.

Inspection Engineer (CO-OP)

Saudi Aramco Mobil Refinery Co. Ltd. (SAMREF) | Jan 2021 - Aug 2021

- Calculated short- and long-term corrosion rates and ensured that fixed equipment was reliable by adhering to Exxon Mobil protocols.
- Coordinated with maintenance teams to schedule repairs or preventive maintenance based on inspection findings, prioritizing tasks based on urgency and impact on operations.
- Assisted in performing routine preventive and predictive maintenance tasks during the scheduled stoppages.
- Helped in preparing a report with all troubleshoots during inspection stoppage including priority and time needed to solve it.
- Ensured the reliability of rotating equipment by following Exxon Mobil procedures and standards.

Certificates

- Project Management Professional (PMP)® | Project Management Institute.

Skills

- Project Management
- Mechanical Engineering
- Safety Management
- Data Analysis
- Quality Control
- Decision Making
- Leadership
- Time Management
- Problem-Solving

Projects

- Micro-Tunneling 3000mm.
- Micro-Tunneling 1400 mm.

Languages

- Arabic: Native.
- English: Advanced.
