

Mohammed Omer Alsayed

Civil Engineer

Location: Riyadh, Saudi Arabia

Languages: Arabic | English

Mobile: +966536049076

Email: mo.salih011@gmail.com

Professional Summary

Civil Engineer with over 9 years of experience in Saudi Arabia, UAE, and Sudan. Expert in construction supervision, risk mitigation, and quality control. Strong leadership skills, certified in NEBOSH, and AutoCAD. Known for delivering projects safely, efficiently, and on budget.

Skills

- Civil Engineering
- Project Management and Planning
- On-site Compliance Checks
- Construction Material Consumption Verification
- Microsoft Office and Computer skills
- AutoCAD
- Nebosh Certification
- Data Analysis
- Teamwork and Collaboration
- Effective Communication
- Risk Mitigation

Work Experience

Civil Engineer, *Wjeen ICC*

2024/05-2025/06

- Led high-profile construction projects with full compliance to safety and engineering standards.
- Developed risk mitigation strategies with smart technologies and real-time monitoring.
- Delivered training on safety and emergency protocols to project teams.
- Accomplished seamless communication with contractors, ensuring project's success.
- Monitored construction activities regularly, maintaining high-quality standards at all times.
- Improved workflow efficiency by implementing advanced software tools.
- Maintained up-to-date knowledge of industry trends and technologies, staying ahead in the competitive market.
- Produced detailed technical drawings, enhancing clarity in execution.
- Conducted comprehensive site surveys to ensure accurate construction planning.
- Managed resources efficiently to minimise waste during construction processes.
- Executed stringent quality control measures, guaranteeing superior outcomes.
- Applied problem-solving skills to tackle complex engineering challenges effectively.
- Provided expert consultation on civil engineering matters to clients.
- Ensured health and safety regulations adherence during all projects.
- Visited sites to review work progress and drive process improvements.

Properties Consultant, *Shawahiq Real Estate*

2023/04 - 2024/03

- Analyzed market trends and economic factors to provide clients with data-driven insights, enhancing their decision-making process for property investments.
- Developed and nurtured client relationships, delivering personalized consultation services that matched client investment goals with market opportunities.
- Orchestrated open houses and property showings, effectively showcasing properties to potential buyers and investors.
- Collaborated closely with legal professionals to ensure all real estate transactions adhered to local laws and regulations, safeguarding client interests.
- Leveraged digital marketing tools and platforms to promote properties, reaching a wider audience and facilitating quicker sales cycles.
- Conducted negotiation on behalf of clients to secure deals that align with their financial and strategic objectives, demonstrating strong advocacy and negotiation skills.

Civil Engineer, Alamin General Contracting, United Arab Emirates, Alain

2021/03 - 2023/03

- Developed and maintained project timelines and milestones using advanced project management tools to streamline operations and enhance team productivity.
- Facilitated cross-functional team collaboration, coordinating between architects, subcontractors, and stakeholders to ensure cohesive project execution.
- Implemented rigorous quality control protocols, ensuring all construction activities complied with industry standards, local regulations, and client specifications.
- Conducted detailed site evaluations and feasibility studies to inform project planning and risk management strategies, optimizing project outcomes.
- Negotiated contracts with vendors and subcontractors, securing favorable terms and ensuring project materials and services met both budgetary and quality criteria.
- Pioneered the adoption of sustainable construction practices, contributing to the development of environmentally responsible and resource-efficient project initiatives.

Civil Engineer, Rebar for engineering and construction, Sudan, Khartoum

2016/05 - 2020/12

- Coordinated continuously with clients to ensure smooth running of all project set-up activities, resulting in timely project initiation and execution.
- Performed on-site tests and checks to ensure compliance with standard codes and safety requirements, thereby maintaining high standards of safety and quality.
- Identified and reported incomplete or faulty work to the project manager, contributing to the overall quality and integrity of the construction projects.
- Managed and coordinated subordinates to ensure timely deliverables, leading to improved project timelines and client satisfaction.
- Verified construction material consumption and pricing to spot any possible misconduct, ensuring transparency and cost-effectiveness in the procurement process.
- Managed construction schedule and activities, ensuring projects were completed on time and within budget.

Certifications and Courses

- Smart Cities, Management of Smart Urban Infrastructures (EPFL) (Ongoing)
- Sustainable Building Design (MIT) (Ongoing)
- Microsoft Office (UST)
- Autocad certification (UST)
- Nebosh certification (UST)
- PMP course

Education

B.Sc. Bachelor of Science: Civil Engineering (2011 - 2016)

University of Science and Technology
