## Site Engineer (Civil)

Mobile: 0552054029 | Email: [asifbaig2499@gmail.com](mailto:asifbaig2499@gmail.com)

Address: AL RIYADH, KSA

## Objective

A dedicated Site Engineer with nearly 5 years of experience managing and supervising large-scale construction projects in Saudi Arabia and India. Specialized in overseeing site operations, concrete works, and residential and commercial developments, with a proven track record of delivering projects on time and within budget. Adept at leading teams, coordinating with stakeholders, and ensuring strict compliance with safety and quality standards. Seeking a challenging position to leverage my expertise in civil engineering to contribute to the successful completion of innovative and impactful projects.

## Work Experience

### Site Engineer at Supreme solutions and Technology

Project name: Diriyah Square Package 6 Super Basement Riyadh, KSA | 2024 Present

Client: Diriyah Gate Development Authority (DGDA)

- Monitor construction activities for compliance with plans and specifications.
- Perform basic quality control inspections of materials and workmanship.
- Identify and report any safety hazards or discrepancies to the Resident Engineer.
- Assist with surveying and setting out structures.
- Prepare and maintain progress reports and documentation.
- Coordinate with subcontractors and suppliers on logistics and deliveries.
- Assist with resolving minor issues and answering questions from workers.
- Managed the entire site operations, ensuring smooth workflow from planning to execution.
- Oversaw concrete works and fit-out phases, ensuring quality and compliance with design specifications.
- Coordinated with subcontractors and suppliers to meet project timelines and budgets.
- Implemented effective resource management techniques, leading to a 15% reduction in material wastage.
- Conducted regular site inspections to ensure adherence to safety regulations and work standards.

Project name: Amaala Triple Bay (Rosewood)

Client: Amaala Red Sea | Al Wajh, KSA | 2022- 2024

- Supervised the construction of 20 luxury seafront villas, adhering to high-end design and finishing standards.
- Coordinated with architects, consultants, and client representatives to ensure project objectives were met within deadlines.
- Achieved a 10% improvement in project completion time by streamlining on-site logistics and resource allocation.
- Ensured safety standards were maintained, achieving zero site accidents during the construction period.
- Directed the construction of state-of-the-art educational facilities, including modern classrooms and playgrounds.
- Monitored daily site activities, ensuring compliance with building codes and quality assurance protocols.
- Collaborated with the project team to implement cost-saving measures, reducing overall construction costs by 8%.

## Site Engineer (Trainee) BCES, Hyd,India | 2021– 2022

**Project:** Oversaw the fifth phase of the Hyderabad City water network and water tank project, ensuring the timely completion of remaining works.

- Led the completion of the fifth phase of the water network and tank project, ensuring efficient water distribution across the city.
- Supervised the installation of pipelines and water storage systems, ensuring compliance with municipal regulations.
- Coordinated between the client, subcontractors, and government officials to address technical and regulatory issues.
- Successfully delivered the project on time, improving the city's water infrastructure by 15%.
- Directed the construction of residential compounds, ensuring high standards of quality and timely project completion.
- Managed teams of workers and subcontractors, ensuring efficient workflow and adherence to safety standards.
- Conducted quality control inspections to ensure all construction work met local building codes and project specifications.
- Delivered the project within the stipulated budget, achieving a cost-saving of 7% through effective resource management.
- Assisted in supervising the construction of concrete tanks for a sewage station, gaining hands-on experience in structural engineering.
- Monitored the progress of construction activities, ensuring compliance with technical specifications.
- Participated in site meetings with senior engineers and contractors to discuss project progress and troubleshoot any arising issues.

---

## Education

### Bachelors in Technology IN CIVIL (JNTUH) HYDERABAD, INDIA

- Graduation year: 2021
- Graduation Project: Effect of using solid wastes as coarse aggregate on the compressive strength of concrete

---

## Courses and Certifications

- Permit Issuer
- MS Office Suite
- AutoCAD 2D & 3D

---

## Skills
