Mada èn Al- Fahd

Jeddah

Profile

I am a 23-year-old civil engineering graduate from Oslo Metropolitan University. She has hands-on experience from constructing two single-storey houses during upper secondary school and later designed multiple residential buildings using Revit and BIM during her bachelor's studies. My thesis focused on sustainable materials in 20–30meter railway bridges, in collaboration with the Norwegian Steel Association (an industry organization that promotes the use of steel in construction) and Bane NOR (the government agency responsible for developing and maintaining Norway's national railway infrastructure).

Education

Bachelor's in civil engineering
Oslo Metropolitan University, in Norway
August 2021 – September 2024

Subjects I had during my bachelor's degree:

- Structural engineering, concrete structures, and geotechnics
- Mechanics, physics, and chemistry
- Project management, economics, and introduction to construction
- Surveying and technical drawing (Revit)

Building and Construction Engineering
Romsdal Upper Secondary School
August 2018 – June 2021

Subjects I had during my years in high school:

- Construction, maintenance, and renovation of buildings and facilities
- Use of working drawings, basic calculations, and AutoCAD
- Material knowledge, quality assurance, and HSE

- Practical work with wood, concrete, and other building materials
- Introduction to climate, environment, and technology in construction processes

Work Experience

Shop Assistant

Coop Extra

October 2024 – July 2025

- Customer service, stocking, and cashier duties
- Responsible for order, cleanliness, and efficient store operations
- Learned to work in a structured manner and handle busy workdays

Garden Consultant and cashier

Hageland Kråkstad

April 2024 – December 2024

- Advised customers on plants and gardening products
- Performed cashier settlements, receiving goods, and product displays
- Responsible for plant care and store tidiness

Private Cleaner

June 2020 – June 2021

- Cleaning in private homes: vacuuming, mopping, window cleaning, and sanitation

Homework Assistant

Molde Adult Education Center

August 2018 – June 2019

- Assisted students in various subjects
- Guidance in problem-solving and study techniques

Courses and Certifications

- Scaffolding course
- Fire safety course
- First aid course
- Driver's license

Skills

- Practical understanding of construction
- Quality-conscious and efficient
- Strong teamwork and communication skills
- Customer- and service-oriented
- Good digital competence and learns fast

IT Tools

- Revit, BIM
- MS Office 365

Languages

- Norwegian – Fluent
- English – Fluent
- Somali – Native
- Arabic – Beginner
