SUMMARY

As a graduate of Civil and Architectural Engineering Technology, with a specialization in Architectural Construction Technology from the Technical and Vocational Training Corporation, I have acquired skills in maintenance, operations, supervision of works, and reading engineering and construction drawings. I am eager to work with a team of professionals, leveraging my previous experiences and abilities to contribute effectively and grow within a fast-paced work environment. My commitment to achieving my professional goals will enable me to support the team's objectives and contribute to the company's success.
