Professional summary

My goal as an Architectural draftsman with over **15 years of experience** is to help the business succeed by creating the most realistic and accurate drawings for the projects I'm given. My background as an AutoCAD draftsman includes working on high-rise residential and commercial skyscraper architectural design and drafting. My understanding and improved my ability to create 2D drawings using both manual drafting and the most recent versions of **Autodesk and Revit (Bim)**. I am willing to learn new things and advance my skills by accepting all types of assignments and continuously improving my work. Considering this, I am confident that I can fulfill the company's requirements.
