- Assure all the personnel work within the guidelines of appropriate safety rules and regulations.
- Perform daily inspection to make sure the minimum requirement of the loss prevention program is met and ensures that proper safety equipment is at the necessary location.

PROJECTS

Project name: Royal Saudi Arabia Defense Base Relocation Briman

Durations: January, 2025 to till date.

As a Safety Officer at **Jeddah Briman**, I was responsible for developing and enforcing safety protocols to ensure a secure work environment across the project site. I conducted regular safety audits and inspections, identifying potential hazards and implementing corrective measures to mitigate risks. My role involved designing and delivering safety training programs to educate the workforce on best practices and compliance with regulatory standards. I also led investigations into any accidents or incidents, determining root causes and advising on preventive actions. Collaborating with project managers and engineering teams, I ensured that safety considerations were integrated into every phase of construction. My efforts contributed to maintaining a culture of safety, minimizing incidents, and ensuring a safe, compliant project execution. Write here the description...

Project name: NEOM Construction Village Project FCO 9/10

Durations: 01/09/2020 – 30/12/2021

As a Safety Engineer for the NEOM Construction Village Project FCO 9/10, I implemented and enforced safety protocols across the site, ensuring compliance with local and international regulations. I conducted regular inspections, identified hazards, and collaborated with contractors to mitigate risks. I also led safety training sessions and investigated incidents, providing corrective actions to prevent recurrence. My efforts ensured a safe and efficient project execution.
