PROFESSIONAL SUMMARY

Dedicated and results-driven Civil Engineer with over 17 years of extensive experience in managing and supervising large-scale construction projects across Jordan, the UAE, and Egypt. Proven track record of delivering projects on time and within budget, with a strong focus on quality assurance, safety compliance, and leadership. Skilled in all phases of construction management, from project initiation to final handover, including cost control, procurement, and stakeholder coordination.

CORE COMPETENCIES

- Project Management & Site Supervision
- Structural & Finishing Works
- Budgeting, Cost Control & Invoicing
- Contract Administration & Submittals
- Quality Assurance & Safety Compliance
- Surveying, Leveling & Layout Execution
- Cross-functional Team Leadership
- Strong Knowledge of International Building Standards & Codes

PROFESSIONAL EXPERIENCE

Project Manager

Mondial Engineering and Construction Company – Egypt

2020 – 2024

- Directed the end-to-end management of multimillion-dollar construction projects from initiation through completion.
- Oversaw site activities, resource allocation, and subcontractor performance to ensure adherence to design specifications and project schedules.
- Coordinated with consultants, suppliers, and governmental authorities to ensure project approvals and smooth workflow.
- Managed project budgets, conducted cost analysis, and minimized resource wastage to maximize profitability.
- Implemented quality assurance processes and enforced strict adherence to safety protocols on-site.

Project Manager

Palm Construction – United Arab Emirates

2012 – 2019

- Supervised construction operations for high-profile residential and commercial projects, focusing on premium finishes and structural works.
- Directed multidisciplinary site teams of engineers, foremen, and laborers to achieve project milestones efficiently.
- Maintained consistent communication with clients and consultants, providing regular progress reports and addressing concerns proactively.
- Ensured all activities were compliant with UAE construction regulations and international quality standards.

Site Engineer

Family Constructions Company – Jordan

2009 – 2012

- Managed the execution of structural, civil, and finishing works for residential and commercial developments.
- Conducted site inspections, verified material quality, and ensured compliance with design blueprints and specifications.
- Monitored project timelines, prepared daily progress reports, and coordinated with subcontractors to resolve technical issues.

Site Supervisor

Salah Building Company – Jordan

2007 – 2009

- Supervised daily construction activities, monitored site logistics, and ensured optimal workforce productivity.
 - Verified the quality of workmanship and ensured that all materials used met required specifications.
 - Assisted in surveying, leveling, and basic layout works to support site engineers.
-
