SUMMARY

Results-driven Construction Manager with extensive experience in large-scale specialized BLD, residential BLD infrastructure, industrial projects, soil improvement, earth work, Roads, precast system erection, steel structure and finishing work. Expertise in project execution, risk management, cost control, and quality assurance in compliance with Saudi Aramco, Royal Commission, and SABIC standards. Proven ability to manage multi-million-dollar projects, coordinate multidisciplinary teams, and ensure project delivery within scope, schedule, and budget. Certified PMP, RMP, OSHA and well-versed in Primavera P6, AutoCAD, SAP, and Microsoft Office.

EDUCATION

- BSc in Civil Engineering | Al-Azhar University, Egypt – 2010
- Graduation Project: Project Management (Grade: Very Good)

CERTIFICATIONS

- Project Management Professional (PMP)
- Risk Management Professional (RMP)
- Fundamentals of Engineering (FE)
- OSHA Safety Certification

TECHNICAL SKILLS

- Project Management: Primavera P6, Microsoft Project, WBS, Cost Control
- Engineering Software: AutoCAD, SAP
- Quality & Risk Management: Risk Assessment, QA/QC, Method Statements
- Document Control: BOQ, Shop Drawings, Contract Administration

SKILLS

- Project Management
- Risk Management
- Cost Control
- Quality Assurance (QA/QC)
- Contract Management
- Site Supervision
- Construction Scheduling
- Engineering Design Review
- Health & Safety Compliance
- Team Leadership
- Procurement & Material Control
- Problem-Solving & Decision-Making
- Stakeholder Coordination
- Technical Report Writing
- AutoCAD & Primavera P6

MEMBER

- Member – Saudi Council of Engineers
- Member – Egyptian Engineers Syndicate

PROFESSIONAL EXPERIENCE

Construction Manager | 2023 – Present Mofarreh Marzooq AlHarbi & Partners

- Leading high-value construction projects in the oil & gas and infrastructure sectors.
- Managing on-site execution, procurement, and quality control to ensure seamless operations.
- Overseeing technical engineering teams, subcontractors, and suppliers to optimize performance.
- Ensuring compliance with Saudi Aramco safety regulations, quality standards, and project deadlines.
- Implementing risk management strategies to mitigate potential project challenges.

Construction manager | 2018 – 2023 Rezayat Contracting Company

- Supervised and executed complex civil construction works for major industrial and infrastructure projects.
- Managed pile foundation, structural concrete, steel structures, and finishing works.
- Led teams in contract administration, progress tracking, and stakeholder coordination.
- Developed detailed project documentation, including shop drawings, method statements, and BOQs.

Specialized Civil Engineer (Concrete Repair & Rehabilitation) | 2018 – 2019 Rezayat Contracting Company

- Delivered concrete rehabilitation, carbon fiber reinforcement, acid lining, waterproofing, and protective coatings.
- Controlled materials, quality, and execution techniques to meet project specifications.
- Collaborated with SADARA, SABIC, and SWCC to enhance existing infrastructure.

Technical Engineer & Inspector | 2016 – 2018 Royal Commission – Yanbu

- Conducted structural inspections, maintenance assessments, and quality audits for RC housing projects.
- Supervised rehabilitation works, ensuring material compliance and structural integrity.
- Prepared technical reports, scope of work, and cost estimations.

Site Superintendent | 2014 – 2016 Rezayat Contracting Company

- Led construction of high-value substation and educational projects, overseeing civil works, foundation execution, and finishing.
- Ensured strict adherence to safety protocols, quality standards, and client requirements.
- Reviewed and approved technical shop drawings, material submittals, and method statements.

Field Engineer | 2010 – 2012 Talaat Moustafa Group – Madinaty Project

- Supervised the construction of large-scale residential developments with various structural systems.
- Managed risk assessment, cost control, and workforce coordination for project efficiency.

MAJOR PROJECTS

1 Offshore Gas Increment – Fadhili Gas Plant Expansion

Budget: 700 Million SAR

Client: Saudi Aramco | Consultant: Aramco

- Managed construction of offshore gas processing and infrastructure facilities.
- Oversaw structural, mechanical, and environmental compliance aspects.
- Ensured project met Aramco's quality and safety standards.

Riyas Site Preparation & Pioneer Camp, TCF Camp

Budget: 300 Million SAR

Client: Saudi Aramco | Consultant: Aramco

- Led site preparation, earthworks, and infrastructure construction.
- Managed contractor agreements, risk assessments, and quality control.
- Ensured compliance with Saudi Aramco's environmental and safety standards.

Royal Commission Auditorium Building (C67-R)

Budget: 500 Million SAR | Area: 36,000m²

Client: Royal Commission | Consultant: Bechtel

- Supervised pile foundation, steel structure, and finishing works.
- Managed contractor compliance and quality control processes.
- Developed project schedules, reports, and risk mitigation plans.

Concrete Repair & Specialized Works

Clients: SADARA, SABIC, SWCC

- Executed concrete rehabilitation, carbon fiber systems, waterproofing, and acid lining.
- Controlled material selection, application techniques, and quality assurance.

Royal Commission Housing Rehabilitation

Client: Royal Commission – Yanbu

- Led structural inspections, maintenance, and repair projects.
- Conducted scope of work development, material testing, and compliance assessments.

KEY ACHIEVEMENTS

- Successfully delivered multiple large-scale infrastructure projects within strict timelines and budgets.
- Managed high-risk construction environments while ensuring safety and compliance with Saudi Aramco, Bechtel, and Royal Commission standards.
- Developed effective risk mitigation strategies, reducing cost overruns and project delays.
- Implemented technical solutions that enhanced construction efficiency and quality.
