

## **Kuttuvam Khan Ahmed**

**Construction Manager**

**Email : [ahamedkhan@live.in](mailto:ahamedkhan@live.in)**

**Contact: +966 537310488**

**Dammam, KSA**

---

### **Summary:**

Accomplished Civil engineer professional with **19 years of progressive experience** and proven record of significant, successful contribution in project management, process improvement, business analysis/evaluation, product-development life cycle methodologies, supplier management, and quality management systems, processes, standards, and systems in several organizations.

### **Areas of Expertise:**

- Progressive inspection of site and material delivered.
- Supplier & Contract Management
- Client /Consultant Relationship
- Technical Documentation
- Meeting with Stakeholders
- Preparation of, Method Statement, as-built drawing.
- Testing & Commissioning
- Site Coordination
- Construction Management
- Resource Management

### **Technical Skills :**

- AutoCAD 2017
- MS office 2013
- Corel Draw
- Photoshop pack
- Windows & Mac Operating systems

### **Certification:**

- Diploma in Computer Aided Design
- PTW Course from Qatar Petroleum
- Scaffolding inspector certification from TUV-Qatar
- LOTO Permit third party certification, Qatar

### **Academia:**

**Bachelors of Engineering - Civil Engineering**

## **Abilities:**

- Ensure that the quality of all works carried out at the project site is as per the client requirements and in compliance with Project Execution Plan (PEP).
- Make method statements and other project specific documentation, in consultation with the Project Manager / Team
- Review & Witnessing of Inward Materials as per Project Specification
- Continuous review & updating of all Logs, covering Inspection Request, Material Inspection Request, Method Statement Submittals etc. and monitoring their status.
- Issue and control the snag/punch list and subsequently, follow-up daily.
- Prepare and Convey observation report at project to the Project Manager to ensure the continuous quality improvement as per company procedures in general.
- Monitoring the phases of quality control of work as per specification.
- Collected, compiled, and interpreted statistical quality data.
- Coordinate all construction related correspondence with the customer's representatives.
- Action and close all customer complaints.
- Control all achieves documentation upon the completion of the project.
- Preparing the Monthly self-audit summary report based on the Plant daily, weekly, and monthly audit data. And submit to H.O
- Interaction with client / consultant for resolving critical issues.

## **Career Summary**

### **WestCon - Western Contractors Contracting L.L.C**

**Project: Baker Hughes oil field services and Equipment Regional Hub**

**Construction of Regional Hub for Baker Hughes**

**Equipment and Transportation Facilities phase 1**

**Period:** October 2021- till date

**Role:** Construction Manager

### **Baumeister Contracting and Trading since October 2021**

**Project: Fit out, Soul. Medical Center**

**Construction of B+G+1+PH with Swimming pool**

**Renovation work for Villa at Pearl Qatar**

**Renovation works for Villa at Al Wakrah**

**Period:** October 2021- till date

**Role:** Construction Manager

### **Med gulf Construction Co. WLL, Qatar**

**Project:** Fit out Project for Qatar Petroleum in Qatar Petroleum District, Doha

**Period:** Mar 2019– March 2020

**Role:** Construction Manager

**Construction Development Contracting and Trading (Subsidiary of Investment Holding Group) Doha, Qatar**

**Project:** Construction of Cable factory Expansion at Masaieed Industrial city for Qatar Industrial Cable Company (QICC)

**Project:** Construction of Petrol Station at Fox Hill Lusail for Qatar Fuel (WOQOD):

**Period:** Sep 2014 -2019

**Role:** Project Engineer

**Med Gulf Construction Doha, Qatar**

**Project:** Construction of storage facilities for chemicals and official buildings for Al Jaidah Group at RLIC

**Project:** Construction of LULU hypermarket for Qatar Insurance Company

**Period:** 2009-2014

**Role:** Civil Engineer

**M/S Prince Palace Contracting Co, UAE**

**Project:** Sewage Pipeline underground tank and supporting infrastructure works at YAS island, Abu Dhabi for Nael bin Harmal group.

**Period:** 2006-2009

**Role:** Civil Engineer

**M/S Al Majal International Trading and Contracting, Doha, Qatar**

**Project:** Construction of Grand Hyatt Hotel Project, Doha, Qatar

**Project:** Construction of B+G+21 storey Al Maha Sofitel Hotel project, Doha, Qatar

**Period :**2004-2006

**Role:** Civil Engineer

**Worked in M/s Emzed Corporation (Khandwani Group) Construction Co. Mumbai as a Site Supervisor from Dec 2004 till Aug 2006.**

**Worked in M/s Bright Constructions at Tamil Nadu as a Civil Supervisor from Jan 2003 to Nov 2004.**

## Overall, Job Responsibilities

### Construction Manager Responsibilities

#### Pre-Construction Phase

- Project Planning: Develop and manage project plans, schedules, and budgets.
- Design Coordination: Collaborate with architects, engineers, and designers to ensure design meets project requirements.
- Permitting and Approvals: Obtain necessary permits and approvals from local authorities.

#### Construction Phase

- Site Management: Oversee site preparation, excavation, and construction activities.
- Contractor Management: Manage contractors, subcontractors, and suppliers to ensure compliance with project requirements.
- Quality Control: Implement quality control measures to ensure work meets project specifications.
- Safety Management: Develop and implement site-specific safety plans to ensure a safe working environment.
- Cost Management: Monitor and control project expenses to ensure budget adherence
- 

#### Logistics and Transportation Facilities

- Equipment Installation: Oversee the installation of Baker Hughes equipment, including cranes, forklifts, and other specialized equipment.
- Warehouse and Storage: Manage the construction of warehouses and storage facilities for equipment and materials.
- Transportation Infrastructure: Oversee the construction of roads, parking areas, and other transportation infrastructure.
- Security and Access Control: Implement security measures, including access control systems, CCTV cameras, and fencing

#### Project Closure

- Project Completion: Ensure project completion within schedule, budget, and quality constraints.
- Final Inspections: Conduct final inspections to ensure compliance with project specifications.
- Warranty and Maintenance: Coordinate warranty and maintenance activities with contractors and suppliers.
- Project Handover: Formalize project handover to the client, including documentation and training.

#### General Responsibilities

- Ensure effective communication among stakeholders, including the client, contractors, and suppliers.
- Risk Management: Identify, assess, and mitigate project risks to ensure successful project delivery.
- Team Management: Lead and manage the construction team, including engineers, supervisors, and laborers.

### Project Engineer Responsibilities

- Ensure the completion of the construction phase of the project.
- Lead Planning, execution and finishing of Villas, Buildings and warehouse construction.
- Responsible for the implementation of project procedures and instructions within assigned operations.
- Liaising with any consultants, subcontractors, supervisors, planners, quantity surveyors and the

general workforce involved in projects.

- Ensure that all activities and works in responsibility are done in full compliance with the standards and specifications.
- Responsible for the overall supervision of structural, finishing work.
- Participate in a multi-disciplinary, multi-cultural engineering team.
- Manage the progress of the work (Time frame, Contractual and administrative until the final acceptance of the project)
- Co-responsible for the project Quality, budget execution and financial results of the project.
- Ensure the correct application of the Safety and QHSE standards on site.
- Ensure that the construction is in accordance with the scope, budget, and schedule.
- Oversee construction (Self production and sub-contractors) to ensure project is constructed in accordance with project Quality plan (PQP).
- Provide the interface amongst the construction sections, consultants, suppliers/ sub-contractors and the management team.
- Plan direct and organize the work.
- Provide general management, operational and technical direction to the subordinates with regards to various aspects and phases of the project to ensure professional and timely execution of the project within the allocated resources and budget.
- Supervise the technical team to provide the detailed shop drawings for projects.
- Ensure the material supplies from both the supplier and the sub-contractor are in accordance with the project specifications and requirements.
- Managing and supervising all construction activities.
- Supervising laborers and skilled workers, ensuring day to day accomplishments are being met.
- Works closely with surveyors to make sure the building is plotted well in the correct coordinates as per drawings.
- Ensure that all execution of works is based on approved drawings and specifications.
- Ensure that the project meets and follow the project schedule.
- Ensure that the project is within the allocated budget.
- Coordinate closely with QS team to ensure that all materials on site are exact and precise.
- Prepares 2 weeks' look ahead, and make sure all materials, workers, tools, and equipment are ready for the coming days of activities.
- Coordinates with subcontractors
- Coordinates with consultants on a day-to-day basis.
- Coordinates with QA/QC to ensure not only to finish the task in terms of quantity but also to pass in the standard requirements of the QA/QC and the consultants.
- Provides technical advice and solutions on site issues.
- Prepares site reports.
- Ensuring that health and safety is strictly observed on-site
- Coordinates with Project Planner in updating the schedule.

## Site Engineer Responsibilities

- Estimation of quantities of concrete, steel (take off) and other materials.
- Examine executed works to ensure compliance ahead of inspection.
- Preparation Cross Sections and plans from the survey data.
- Site visit, Measurement, and other related works
- Manpower Management
- Coordinate with the project construction team regarding the project concerns and issues.
- Review the scope of work for the project, specifications, procedures, and requirements such as approved drawings and applicable codes and QCS standards,
- Maintaining the daily progress reports.
- Management of 3Ms of the project (Manpower, money, and material)
- To perform structural supervision activities in accordance with the project, schedule, and applicable standards
- To monitor the revision states of all documents issued for use on the project,
- Site surveillance and monitoring inspection and installation.
- Estimation of quantities of concrete, steel (take off) and other materials.
- Examine executed works to ensure compliance ahead of inspection.
- Preparation Cross Sections and plans from the survey data.
- Site visit, Measurement, and other related works
- Manpower Management
- Preparation of Construction Quality Procedure and Method of Statement
- Daily monitoring the Construction Activities and make observation log.
- Responsible for the over-all implementation of Quality Control related civil works accordance with project specifications and Engineering Standards.
- Verify the construction Drawings and specifications.
- Plan, organize and carry out the internal audit function including the preparation of an audit plan which fulfils the responsibility of the department, scheduling and assigning work and estimating resource needs.
- Guide & Advice site engineers and Supervisor, as applicable to ensure that Project deliverables fully reflect QA/QC requirements and other specific guidelines set by Company.
- Co-ordination with Client to provide solutions for deviations on the equipment/specifications and to ensure that all standard requirements are met.
- Taking preventive and predictive actions for the non-conformities observed in site.
- Ensuring the smooth handing over documentation for completed projects.
- Maintain good relationships with the client to establish the company as the contractor of choice.
