

SHAHARYAR AHMAD

Civil Engineer

+966-54-350-7708

shaharyarahmad555@gmail.com

Al Malaz, Riyadh

Iqama: Transferable

Education

- University of Engineering and Technology**
Bachelor of Science in Civil Engineering
Completed in 2021
- Zamindar College Gujrat**
Certificate in Pre-Engineering
Completed in 2017
- Govt. Islamia High School No.1**
Certificate in Science
Completed in 2015

Skills

- Construction Cost Estimation
- Site Supervision
- Construction Planning
- Critical Thinking
- Communication Skills
- Team work
- English Communication
- Time Management

Awards

Oct 2015 | Islamia High School
The Top student of the Year

Dec 2023 | Frontier Works Organization
The Best Employee of the Month

Certification

Construction Safety and Health

Basics of Project Management
Professional (PMP) aligned with PMBOK®

Profile

QA/QC Engineer with expertise in quality assurance and quality control for infrastructure and residential projects in Saudi Arabia. Proficient in MS Excel and quality management tools, ensuring compliance with project specifications, early identification of quality risks, and effective implementation of corrective actions. Skilled in integrating quality and time data to support optimized project execution and delivery within quality standards and constraints.

Experience

QA/QC Engineer

Aug 2022 - Mar 2025

Al-Ula Development Company

Worked as a QA/QC Engineer on the Six Senses AlUla luxury hospitality project, a high-end tourism development by PIF aimed at transforming AlUla into a global destination. Focused on quality assurance and quality control for over 100 guest villas and 25 branded residences.

Developed detailed quality assurance plans using MS Excel, ensuring civil, structural, and MEP works met project specifications and standards.

Inspected material, labor, and equipment quality, updated quality control checklists, and coordinated with procurement to ensure compliance with project requirements. Generated weekly quality reports, non-conformance analyses, and quality performance dashboards for management and client review.

Collaborated with consultants and subcontractors to mitigate quality issues, implement corrective actions, and ensure project delivery within quality standards.

QA/QC Engineer

Feb 2021 - July 2022

Ashi & Bushnag Co. KSA, Yanbu

- Developed detailed quality assurance plans by integrating quality, time, and resource data to ensure compliance with project specifications.
- Analyzed drawings and contract milestones to verify quality standards for critical path activities and identify potential quality risks.
- Built expertise in quality assurance and control for civil, structural, and MEP works to ensure adherence to project standards and precise resource allocation.
- Maintained detailed quality reports and performance dashboards to track compliance and ensure high-quality project delivery.

Trainee Civil Engineer

June 2019 - Aug 2020

ZKB - Reliable (JV)

As a Trainee Engineer at Pakistan Kidney and Liver Institute & Research Center (PKLI&RC), I gained hands-on experience in site supervision, quantity surveying, and construction management. I was actively involved in monitoring construction activities, ensuring compliance with design specifications. I collaborated with senior engineers and contractors to resolve on-site challenges, maintain project quality, and adhere to safety standards. This experience enhanced my technical skills in project execution, reinforced my understanding of construction methodologies, and provided valuable exposure to large-scale healthcare infrastructure projects.
