

Tehmeed Afzal

CIVIL SITE ENGINEER

IQAMA (Transferable Iqama)

PERSONAL DETAILS

Address: Riyadh, Saudi Arabia

Email: tehmeedafzal77@gmail.com

Contact #: +966574985774

EXPERIENCE SUMMARY

Detail-oriented Civil Engineer with 4 years of experience in site execution and quality control within the construction industry. Skilled in supervising on-site activities, ensuring compliance with technical drawings and specifications, and maintaining quality standards across all project phases. Proven ability to coordinate with contractors, consultants, and project teams to deliver high-quality work on schedule. Experienced in materials inspection, concrete testing, documentation, and implementing QA/QC procedures. Committed to safety, precision, and continuous improvement in construction practices

EXPERIENCE

Civil Site Engineer

LEVELS CONTRACTING, RIYADH, KSA

FEB 2022–OCT 2024

Work Responsibilities

- Supervised and executed all major civil and structural activities, including excavation, formwork, steel fixing, concreting, masonry, and finishing, ensuring compliance with project drawings and specifications.
- Interpreted technical documents (drawings, BOQs, method statements) to align site work with design intent and contractual scope.
- Ensured quality control through material inspections, verification of test results
- Coordinated inspections with clients, consultants, and subcontractors, effectively managing snag list closures and documentation for approvals.
- Tracked daily/weekly progress, prepared site reports (pour logs, manpower, equipment), and implemented corrective actions to maintain project schedule.
- Maintained HSE compliance through toolbox talks, safety briefings, and active participation in audits, walkdowns, and third-party inspections.

Junior Site Engineer

TAHIR BUILDING ISLAMABAD PAKISTAN

Aug 2021 - JAN 2022

Work Responsibilities

- Involved in the supervision of key site activities such as excavation, formwork, concreting, and finishing works, ensuring work is carried out as per project drawings and specifications.
- Developed skills in interpreting structural and architectural drawings, BOQs, and method statements to support accurate and efficient site execution.
- Assisted in quality control processes, including material inspections, concrete testing (slump and compressive strength), and monitoring site workmanship under QA/QC standards.
- Helped prepare daily progress reports, concrete pour logs, and site inspection records in coordination with senior engineers and QA/QC teams.
- Actively engaged in coordination with subcontractors, consultants, and internal teams during inspections and project reviews to support smooth workflow and issue resolution.
- Gained practical understanding of HSE protocols by participating in toolbox talks, safety inductions, and ensuring basic site safety compliance during daily operations.

EDUCATION

Bachelor of Science in Engineering

COMSATS UNIVERSITY ISLAMABAD, Sahiwal

SEP 2017 - JUL 2021

SOFT SKILLS

Site Management

English
