BAHAA SHALTOUT

! Scan Me

PROFILE

I have +16 years of working experience, 13 years of which are in Saudi Arabia, and I can lead the work team, work under pressure, adhere to work ethics, explain drawings and plans, make adjustments to them, and organize budgets and costs. Determine the resources needed to complete the project, evaluate and resolve potential risks, and manage records and procedures for example (management of subcontractors in the Engineering Inspection Department in receiving works), reviewing all reports, identifying the defect and managing the way to fix it and planning for quality control and all operations related to the implementation of various projects from banks. Residential and commercial buildings, residential and commercial towers, etc., and specializes in project management.
