

SYED FAISAL SIKANDER

CIVIL ENGINEER

SITE ENGINEER

QA/QC ENGINEER

EMAIL:

Faisalsyed9899@gmail.com

Phone:

+966535878090

Location:

Saudi Arabia, Riyadh.

Professional Summary:

5+ years of experience in various Infrastructure Project, alongside other large-scale civil construction projects like commercial, Residential, Mixed-use, and Specialized Construction Projects. Skilled in Site execution, supervision, inspection, material testing, proven ability to coordinate with multidisciplinary teams, seeking a challenging position where I can contribute my expertise to ensure the highest quality work.

Career Objective:

Motivated Civil Engineer with Strong Civil Engineering fundamentals, Quality assurance and quality control, seeking to contribute technical expertise and knowledge to Mega infrastructure and construction projects.

Professional Work Experience:

Civil Site Engineer

NAF Contracting LLC, Dubai, UAE.

(Mar 2023-Jan 2025)

Responsibilities:

- ✓ Supervise civil works like excavation, PCC, RCC, Shuttering, reinforcement, concreting, blockworks, plastering and finishing activities.
- ✓ Providing technical advice to supervisor work crews and subcontractors on site to ensure tasks are completed on time and within budget.
- ✓ Oversaw execution of civil works including excavation, formwork, steel fixing, concreting, waterproofing and architecture works.
- ✓ Reviewed shop drawing, bar bending schedules (BBS), and technical submittals for structural and architecture works.
- ✓ Ensure strict adherence to QHSE (Quality, Health, Safety & Environment standards as per GCC regulations and site-specifications.
- ✓ Ensured execution was as per structural and architecture drawings and is code standards (IS 456, IS 383, IS 1200, IS 10262, etc.).
- ✓ Recorded Daily progress reports (DPR), Weekly progress reports (WPR)
- ✓ Raised RFIs (Request for information) and solved drawings issues in coordination

with the design team.

- ✓ Reporting to project engineer.
- ✓ Ensuring all the tasks are carried out in accordance to the approved project plan.
- ✓ Utilized team productivity and optimized resource utilization to consistently deliver project on schedule and within budget.
- ✓ Conducted site inspections and prepared daily, weekly and monthly progress reports.

Civil Engineer and Draftsman

Hitech Interiors and Constructions developers, INDIA.

(Jan 2022- Dec 2022)

Responsibilities:

- ✓ Created 2D & 3D Visuals for residential and commercial building projects under guidance using AutoCAD and Revit or similar tools.
- ✓ Assist in preparing layouts for buildings and Infrastructures.
- ✓ Assisted in updating and modification design drawings based on client or engineer or Architecture feedback.
- ✓ Maintained work sequence to avoid rework and ensure quality finish during handover stages.
- ✓ Monitored safety practices like use of PPEs, safety signage, scaffoldings checks, and tool-box talks.
- ✓ Ensuring all changes made are clearly marked and saved.
- ✓ Gained familiarity with construction drawings, site plans, and structural layouts.
- ✓ Worked closely with Engineers to ensure accuracy and compliance with drafting standards
- ✓ Assisted in supervision of construction activities, ensuring work aligned with project drawings and specifications.

Civil Engineer cum Site Coordinator

Avani Constructions, INDIA.

(Oct 2020- Nov2021)

Responsibilities:

- ✓ Assisted in supervising construction activities for residential/commercial projects, ensuring compliance with drawings, specifications and safety standards.
- ✓ Coordinated daily with contractors, site engineers, and labor teams to ensure smooth work flow and material availability.
- ✓ Prepared and maintained project documentation including daily progress report, site instructions and inspection checklist.
- ✓ Attended site coordination meetings and communicated technical updates and instructions to on-site teams.
- ✓ Supported senior engineers in verifying structural elements like rebar placing, shuttering and concreting.
- ✓ Monitored and controlled project costs throughout the construction phase.

Academic Qualifications:

Bachelors of Technology in Civil Engineering

JNTUH (Jawaharlal Nehru Technological University, Hyderabad, INDIA)

(Year of Graduation Oct 2020)

Relevant Coursework:

Surveying, RCC, Project management, structural analysis, CAD drawings, Building material and construction, highway engineering.

Academic projects & Trainings:

- ✓ Designed concrete mixes (m20-m40) using IS code methods.
- ✓ Performed slump test, Compression strength test, Tensile test and water-cement ratio analysis.
- ✓ Analyzed mix quality variation for strength and workability.
- ✓ Prepared Concrete cubes, tampered, cured and then Tested concrete cubes before and after settlement testing rebound hammering and compression testing.
- ✓ Have done survey using Total station in university.
- ✓ Participated in workshops on prestressed concrete and construction materials.

Professional Skills:

- ✓ Site Operations supervision, Inspections and oversight of project activities.
- ✓ Strong site supervision and oversight of project activities.
- ✓ Project planning and scheduling
- ✓ Quality Assurance & Quality Control (QA/QC)
- ✓ Construction material testing (concrete, soil, asphalt)
- ✓ Construction management
- ✓ Good ability to analyzing and solving problems on-site effectively
- ✓ Good communication and interpersonal skills
- ✓ Material management and resource tracking for efficient project execution.
- ✓ Laboratory coordination & testing procedures.

Software & Tools:

- ✓ **Construction Tool** : AutoCAD
- ✓ **3D Tools** : Revit Architecture
- ✓ **Designing** : Staad Pro
- ✓ **Project planning** : Primavera p6
- ✓ **Application Tools** : MS office (word, excel, PowerPoint).
- ✓ **Quantity Estimation**
