

Mostafa Badr El-Dein Abdelhamid Moghib

Civil Engineer

+966539980237 | mostafa.kapo93@gmail.com | Riyadh-Saudi Arabia

CAREER OBJECTIVE

Results-driven Civil Engineer with over 7 years of experience in executing and supervising diverse infrastructure, road, excavation work, architectural finishing works and building construction projects across Egypt and Saudi Arabia. Skilled in site management, technical office coordination, quantity surveying, and project planning. Proven track record in delivering high-quality projects in alignment with engineering standards, safety regulations, and client requirements. Adept at managing large-scale infrastructure developments including wastewater treatment systems, flood protection structures, canal rehabilitation, high-speed railway embankments, and finishing works for residential and commercial buildings. Proficient in AutoCAD, Civil 3D, and surveying tools, with strong communication, leadership, and problem-solving abilities. Committed to continuous professional development and contributing to successful, on-time project delivery.

WORK EXPERIENCES

AL-MASAR AL-HADEETH CO.LTD | HAIL | APR 2025-Present

Project: Development of water networks in the center of Hail - Eastern Part - National Water Company - Hail

Civil Engineer (Infrastructure Execution and Supervision)

- Supervise and execute infrastructure works including sewer networks, water supply lines, stormwater drainage, manholes, and road base layers.
- Interpret and implement detailed infrastructure drawings, BOQs, and project specifications on-site.
- Oversee installation and testing of utility services, including hydrostatic and leakage pressure tests.
- Prepare and submit inspection requests (IRs), method statements, and daily progress reports.

Hodood Al Kamal Contracting Company | Riyadh | Oct 2024-APR 2025

Project: Renovation, maintenance, and finishing of Laila Al-Akheliyya residential buildings - Al-Olaya District - Riyadh

Civil Engineer (Implementation, Supervision and Technical Office)

- Supervise and monitor on-site civil works execution in accordance with project drawings, specifications, and safety standards.
- Review construction plans and prepare material take-offs, BOQs, and shop drawings using AutoCAD and related software.
- Coordinate between site operations and the technical office to ensure timely execution and quality compliance.
- Support in quantity surveying, cost estimation, and resource planning for ongoing and upcoming project phases.
- Participate in technical meetings, progress reviews, and coordination with consultants, suppliers, and stakeholders.

Al Safwa Contracting and Real Estate Development Company | Egypt

Civil Engineer (Implementation, Supervision, Technical Office and Follow-Up Projects) | Jan 2024 - oct 2024

Project: Construction of a bridge at Km 64,000 on the Nagaa Hammadi Canal Al Sharqia, Akhmim Center, Sohag Governorate / Construction of protective dams and artificial lakes to mitigate flood risks - Assiut Governorate / Construction of artificial lakes and earthen barriers to reduce flood hazards - Qena Governorate

- Supervise and execute civil construction projects from planning to completion, ensuring compliance with design specifications, quality standards, timelines, and safety regulations, while coordinating between site

- operations and the technical office to monitor progress, resolve issues, and achieve project goals efficiently.
- Oversee and execute civil construction activities for both infrastructure and building projects, ensuring adherence to engineering drawings, technical specifications, and project requirements.
- Prepare, review, and coordinate technical submittals, shop drawings, and as-built documentation with the technical office.
- Monitor on-site operations to enforce health, safety, and environmental (HSE) standards, ensuring high-quality execution throughout all construction stages.
- Assist the planning team in schedule updates, resource coordination, and proactive risk mitigation during project implementation.

Road Engineer (Implementation, Supervision and Technical Office) | Aug 2022 - Jan 2024

Project: Construction of the earth embankment for the route of the high-speed electric train (6th of October - Aswan) - Ministry of Transport (General Authority for Roads and Bridges)

- Plan, supervise, and execute road construction and maintenance projects, including earthworks, subgrade, sub-base, base course, and asphalt paving.
- Conduct site inspections and oversee the implementation of highway engineering standards, drawings, and technical specifications.
- Coordinate with survey teams for alignment, leveling, and setting out of roads using GPS and total station equipment.
- Review project drawings, cross-sections, and pavement design, ensuring accuracy and compliance with local and international codes.
- Prepare quantity take-offs, material requests, and daily progress reports, while ensuring cost and schedule control.

Civil Engineer (Infrastructure Execution and Supervision) | Dec 2021 - Jul 2022

Project: Execution of force main pipelines for the construction of a wastewater treatment plant - Dar El-Salam Center - Sohag Governorate (part of the "Decent Life" Initiative)

- Supervise and execute infrastructure works including sewer networks, water supply lines, stormwater drainage, manholes, and road base layers.
- Interpret and implement detailed infrastructure drawings, BOQs, and project specifications on-site.
- Oversee installation and testing of utility services, including hydrostatic and leakage pressure tests.
- Prepare and submit inspection requests (IRs), method statements, and daily progress reports.

Civil Engineer (Implementation, Supervision and Technical Office) | May 2021 - Dec 2021

Project: Rehabilitation and lining of Al-Gonaina, Al-Shubbak, Al-Gazeera canals and Al-Gazeera branch - Nasr El-Nuba Center - Aswan Governorate / Rehabilitation and lining of Kheret El-Sofla Canal - Nasr El-Nuba Center - Aswan Governorate - (Ministry of Water Resources and Irrigation - General Directorate of Water Resources and Irrigation - Aswan Governorate)

- Supervise site execution activities including structural works, concrete casting, masonry, and finishing works to ensure compliance with project drawings and specifications.
- Prepare and review shop drawings, bar bending schedules (BBS), and as-built drawings using AutoCAD and relevant design software.
- Inspect delivered materials for quality and ensure compliance with project specifications before installation.
- Participate in project planning, scheduling, and cost control activities with the project management office.

Civil Engineer (Implementation, Supervision and Technical Office) | Dec 2019 - May 2021

Project: Construction of protective dams and artificial lakes to mitigate flood risks - Dairout Center - Assiut Governorate - (Ministry of Water Resources and Irrigation - General Directorate of Horizontal Expansion and Irrigation Projects in Assiut)

- Execute and monitor civil works including excavation, foundation, slab casting, blockwork, waterproofing, and concrete finishes according to project timelines.
- Collaborate with design and planning teams to align site execution with architectural and structural plans.
- Prepare daily, weekly, and monthly site reports, tracking manpower, equipment utilization, and work progress.
- Ensure adherence to civil engineering codes, local authority regulations, and company quality standards

EDUCATION

Bachelor's Degree in Civil Engineering - Nahda University - Beni Suef - 2018

COURSES

- Road Course (Execution - Design - Technical Office)
- PMP (Project Management Professional) Course
- Infrastructure Works Course

FIELD TRAINING

- The Egyptian Joint Stock Company (El-Abd Contracting) - Jul 2017 - Aug 2017
Project: Construction of residential buildings in Al-Asmarat New City - Al-Mokattam, Cairo (Construction + Finishing)
- Hassan Allam Construction - Jul 2016 - Aug 2016
Project: Construction of Beni Suef Power Plant in Ghayatah Al-Sharqiya Village with a production capacity of 4800 MW (Construction - Foundation for Power Turbines)
- Orascom Construction - Jul 2015 - Aug 2015
Project: Grand Heights Infrastructure and Villas - 6th of October City (Roads - Infrastructure - Construction - Finishing)

TECHNICAL SKILLS

- AutoCAD (2D & 3D Drafting)
- Quantity Surveying & BOQ Preparation
- CIVIL 3D
- Technical Report Writing
- Building Codes & Standards (e.g., ACI, BS, Eurocode)
- Health & Safety Compliance
- AutoCAD for Road Layouts
- Traffic Management & Road Safety Standards
- Surveying Tools (Total Station, GPS, Theodolite)

SOFTE SKILLS

- Effective communication.
- Time management and organization.
- Handling work pressures
- Problem-solving skills.
- Leadership and motivation
- Attention to Detail
- Self-learning and self-development
- Proficiency in Microsoft Office
- Flexibility and adaptability

LANGUAGES

- Arabic (Native).
- English (Very Good).

Ramsis Fahmy
Project Manager

To whom it may concern.

Mostafa Badr El-Din Abd El-Hamid was assigned to our project Grand Heights Infrastructure and Villas Projects 6th October from 4 July 2015 to 6 August 2015 during *his time here he has been very keen to learn about our various site activities.* He has also shown a great interest in how we proceed at work site. Whilst visiting the site he has made many observations and has offered solutions, this will go a long way to improving his knowledge regarding construction

I believe that this young engineer is the future of Orascom, and should be encouraged to continue with his development.

It has been a great pleasure to work with him, and would welcome him back to visit our site at any time in the future.

May I wish you a successful career in the construction industry, if you need any information or advices please do not hesitates to call me.

Kind Regards,

Ramsis Fahmy

Area Manager

160 - 26th July Street. Agooza
Giza, Egypt

TO WHOM IT MAY CONCERN

*This is to certify that **Mr. Mostafa Bader EL-Deen Abdel-hammed** was trained on Beni-Suef Combined Cycle Power Project 4800 MW, (from August 11, 2016 to August 25, 2016)*

The training course included application/construction for civil, activities. In addition; Quantity Survey for some buildings and how applying the Safety Rules on Site.

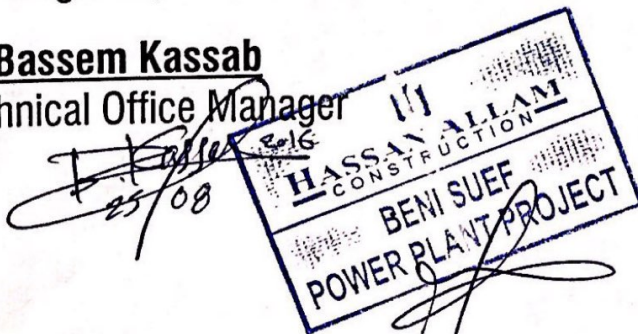

Overall performance after completed the training course and made the final exam, we found him to be trust worthy and punctual in all the jobs assigned to him-self.

*During this period **Mostafa's** performance was Excellent, he was self-motivated, intelligent, energetic, fast learned, capable of completing all his tasks promptly, skill-fully and in satisfactory manner.*

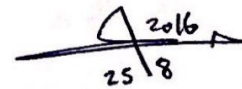

This certificate was given to him upon his request, without any liability what so cover, wishing good luck for him.

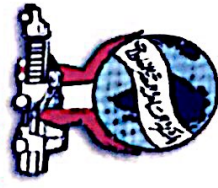

Best regards,

Bassem Kassab
Technical Office Manager
