Personal Profile

A diligent and professional civil engineer with excellent organizational skills. A strategic thinker with over 6 years' experience of civil engineer and Site Supervision. Experienced and versatile with a keen eye for detail and have a practical, pro-active approach to any role undertaken. For over 8 years I have had a hugely successful career consistently delivering excellent results in various environments.

Key Skills

Project execution: I possess a working knowledge of execution of various construction projects. Following the drawings, codes, design, and specification provided by consultants, and completion of project within the time.

Planning and Delivery: I have planned and delivered various construction projects; from construction of G+1 basement and G+2 residential villas. I also planned and supervised construction of commercial car service and car wash project.

Quality Control: I ensure that all the material and process must meet the quality requirements as specified in documentation, checking all critical stages to ensure that the quality meets not only the specification but also the expectation of the client/end user.

Contracting: I also have good knowledge of arranging and dealing with different sub-contractors for my project, and I have good skill to open for them the work to achieve the goal.

Procurement: I have the ability of arranging all the goods, and services within the budget for my projects.

Health and Safety: I foster a culture of health and safety within all the projects that I am involved in and convey this to all my project teammates.

Team Building/Leadership: I build teams and team spirit, leading by example. By setting clear targets and giving praise when these targets are achieved, the spirit of the individual and the team is enhanced. I build good working relationships with the teams, the client, the end user and all stakeholders.

Oral and IT communication: I am equally comfortable presenting to senior management teams, contractors and trainees. I am proficient in the use of Microsoft PowerPoint, Excel and Word.

Full Career History
