

ENG\ Raed Abdulrahman Alshahrani

Professional Summary

Accomplished Project Manager & Civil Engineer with over 5 years of experience delivering complex infrastructure and construction projects. Expertise in budget management, schedule optimization, and HSE compliance, evidenced by a consistent zero-accident record. Adept at leading cross-functional teams, implementing lean methodologies, and managing projects from conception to final inspection to ensure high-quality deliverables and client satisfaction.

Professional Experience

Construction Manager | First Fix, Riyadh

• October 2023 – Present

- Project: Royal Arts Complex - King Salman Park
- Developed and executed comprehensive project plans, including schedules, budgets, and resource allocation, to ensure timely and cost-effective project completion.
- Managed project budgets, tracked expenses, and implemented cost-saving measures, resulting in consistent adherence to financial targets.
- Coordinated with suppliers, subcontractors, and internal teams to optimize resource utilization and minimize project delays.
- Implemented stringent quality control protocols to ensure compliance with industry standards and client specifications.
- Proactively identified and mitigated project risks, maintaining safety standards and minimizing liabilities.
- Resolved complex issues to overcome project challenges, maintaining project momentum and achieving objectives within established timelines.

Project Manager | Middle East Tasks Company Ltd., Taif

• September 2022 – October 2023

- Project: National Security Project - Taif Airport
- Directed and oversaw project execution, ensuring timely and high-quality completion.
- Controlled site financials, managed material quantities, and prepared bills of quantities and building logs.
- Coordinated with and supervised multiple subcontractors (electrical, HVAC, etc.) and managed their contracts.
- Sourced and procured construction materials and equipment, including unplanned works.
- Prepared project documentation for final technical inspections to ensure compliance with government regulations, especially concerning safety and emergency procedures.
- Maintained detailed records and logs of work, materials, and equipment.
- Created and presented weekly and monthly reports to the management team.
- Implemented NEBOSH-aligned safety protocols, achieving a zero-accident record.
- Awarded a Certificate of Appreciation from Taif Airport Authority for outstanding performance.

Civil Engineer | Middle East Tasks Company Ltd., Jeddah

• December 2020 – August 2022

- Project: National Security Project for King Abdulaziz International Airport
- Supervised the construction of road blockers and security systems for the airport's gate.
- Managed excavation, burial, and soil testing (compaction) for various project components.
- Oversaw the full construction cycle from reinforcing steel framework and formwork to concrete pouring and slump tests for all structural elements.
- Drafted and modified project layouts (Civil, Mechanical, Electrical, and Security) and conducted quantity inventory.

Civil Engineer Trainee | Fahd Abdul Karim Al Mojil & Brothers Solidarity Company, Jeddah

• October 2019 – April 2020

- Project: Real Estate Buildings for "Sakani" Program
- Supervised the construction of real estate buildings.
- Oversaw key construction phases including excavation, backfilling, soil compaction tests, and handing over to the consultant.
- Supervised reinforcing steel framework and formwork for all structural elements (bases, columns, beams, slabs).
- Conducted and supervised concrete slump tests and pouring for all structural components, ensuring quality control.
