EDUCATION

Bachelor of Science in
Civil Engineering,
Faculty of Engineering,
Alexandria University,Egypt
2019-2024
GPA : 2.83
Grade : very good

SKILLS

Technical Skills:

- Civil 3D
- Excel
- AutoCAD
- Word

Additional Skills:

- Strong problem-solving skills
- Effective communication and teamwork
- Attention to detail
- Time management and organizational skills

LANGUAGES

English Good

Arabic Mother language

PROFESSIONAL PROFILE

Civil Engineering graduate with strong foundational knowledge in structural analysis, design, and project management. Seeking to contribute to innovative projects and develop practical experience in a challenging engineering environment.

Projects and Academic Work

• Graduation project

project focused on Roads and airports, where I designed a complete airport with runways and access roads connecting the airport to the external road network. The project was submitted and received an A- grade.

• Steel factory

I designed a steel factory with dimensions of 35m x 42m, utilizing a structural system consisting of a trussed frame.

• Steel factory

I designed a steel factory with dimensions of 15.5m x 30.5m, featuring a structural system that consists of a frame.
