    - Collaborate with cost control and planning department in preparing the daily progress reports.
    - Communicate with suppliers and supply all electrical materials needed for completing Works.
    - Follow up all related electrical works.
    - Design all Electrical Drawings and Shop Drawings to all systems for approval.
    - Making Weekly Reports to MEP Manager about all projects and any updates in design, procurements ... etc.
  - **Projects**  
(Marseya 250 Villa) - (Hospital of Addiction) - (Psychiatric Hospital)

## Courses

- **Distribution Diploma ENG. Mohamed Emam (online).**  
Level 1 (lighting system using DIALux evo and AutoCAD – power system using AutoCAD)  
Level 2 (single line diagram – panel schedule design – Sizing Transformer, Generator and UPS – P.F Correction)
- **Light current course ENG. Mohamed Emam (online).**  
(Fire Alarm – Data – Telephone – CCTV – TV system – Access control)
- **Shop Drawing course ENG. Mohamed Emam (online).**
- **CCNA & CCNP for light Current Engineer (online).**

## Skills & Languages

### Software skills

- AUTOCAD
- DIALUX evo
- Microsoft office (Word, Excel and Power Point)

### Languages

- Arabic (Native)
- English (Good)

### Personal skills

- Self-learning
- Teamwork
- Work under pressure
- Communication skills
- Presentation skills
- Attention to detail
- Problem Solving
