Professional Summary

Civil Engineer with 4 years of experience in site supervision, structural shop drawings, project planning, and post-tensioning. Proven ability to manage site operations, ensure quality control, and handle project documentation. Skilled in project scheduling and maintaining accurate records, with a commitment to completing projects on time and within budget.

Professional Experience

Civil Engineer

Saudi Structures Contracting Co, [Jeddah]

[December/2023] – [Present]

- **Site Supervision and Management:** Supervised daily site activities, ensuring compliance with safety standards and project specifications. Coordinated with subcontractors and suppliers to manage workflow and resolve site issues.
- **Structural Shop Drawings:** Developed and reviewed structural shop drawings for accuracy and compliance with design standards. Collaborated with architects and engineers to address and correct discrepancies.
- **Project Planning and Scheduling:** Assisted in creating project plans and schedules. Monitored project progress, updated timelines, and implemented corrective actions to maintain project timelines.
- **Post-Tensioning:** Executed post-tensioning procedures, including the installation and tensioning of steel cables. Conducted inspections to ensure structural integrity and adherence to engineering specifications.
- **Documentation and Filing:** Managed project documentation and filing systems. Maintained accurate records of site activities, correspondence, and reports for compliance and auditing.

Civil Site Engineer

I'IMAR general co, [Beirut , Lebanon]

[December/2021] – [May/2022]

- **Site Supervision:** Overseeing day-to-day operations on the construction site, ensuring that work is carried out according to the plans, specifications, and quality standards.
- **Quality Control:** Monitoring the quality of work performed by contractors and subcontractors, conducting inspections, and ensuring compliance with building codes and safety regulations.
- **Project Coordination:** Coordinating with various teams, including architects, surveyors, and subcontractors, to ensure smooth workflow and timely completion of tasks.
- **Documentation:** Keeping detailed records of site activities, including daily logs, progress reports, and any issues that arise. Maintaining accurate documentation is crucial for tracking progress and managing project costs.
