Professional Summary

Results-driven Civil Engineer with 8+ years of experience in construction site management, project supervision, and quality control. Proven track record in delivering large-scale projects including a stadium, villas, Residential Buildings and infrastructure renovations. Expertise in finishing works, safety compliance, and multidisciplinary coordination. Adept at managing subcontractors, ensuring regulatory compliance, and optimizing project timelines.

Key Skills

- Site Management & Supervision
- Structural Engineering & Quantity Surveying
- Quality Control & Assurance (QA/QC)
- Health & Safety Compliance (OSHA Standards)
- AutoCAD | SAP2000 | MS Office | Primavera P6
- Subcontractor & Team Management
- Problem Solving & Stakeholder Communication

Professional Experience

Senior Site Engineer

SHAMSAT for Contracting (RTCC Sub) | Riyadh, KSA | Jan 2025 – Present

- **Project:** WADI SAFAR, Diriyah (Infrastructure & Roadwork)
- Supervised daily construction activities, ensuring alignment with project schedules and on-time milestone completion.
- Managed multiple subcontractors and 50+ on-site workers, resolving conflicts and optimizing workforce efficiency.
- Conducted daily toolbox meetings to reinforce safety protocols (PPE, hazard identification, emergency procedures).
- Performed quality inspections on materials and workmanship.
- Coordinated with surveyors and design teams to verify alignment with engineering drawings.
- Successfully installed 24,000 LM of curbstones with zero defects, meeting municipal standards.
- Prepared weekly progress reports for senior management, highlighting risks and mitigation strategies.

Senior Site Engineer

EIMAAR MISR for Contracting | North Sinai, Egypt | Aug 2021 – Dec 2024

- **Project:** Renovation & Refurbishment for MFO (UN Forces)
- Led the full renovation of 17 villas, including structural repairs, MEP upgrades, and finishing works.
- Managed simultaneous construction across 22 administrative buildings, ensuring on-time handover.
- Oversaw electrical, plumbing, and HVAC installations, coordinating with specialized teams.
- Reduced material wastage by strict inventory tracking and supplier negotiations.
- Conducted safety audits and implemented corrective actions, achieving zero accidents in 28 months.
- Supervised the Wastewater Treatment Plant upgrade, ensuring compliance with environmental regulations.

Site Engineer

New Gas for Contracting | Ismailia, Egypt | June 2019 – May 2021

- **Project:** Suez Canal Stadium (22,000-seater)
- Managed foundation works, steel erection, and concrete pouring, ensuring structural integrity.
- Oversaw finishing works (tiling, painting, false ceilings) for stadium, gym, and cafeterias.
- Conducted daily site inspections, documenting deviations and enforcing corrective actions.
- Reduced project delays by optimizing material procurement and labor allocation.
- Ensured seismic compliance for the stadium, passing all government inspections.
- Handled client walkthroughs, addressing concerns and ensuring satisfaction before handover.

Site Engineer

Vision Co. (Hassan Allam Sub) | Ismailia, Egypt | Apr 2018 – May 2019

- **Project:** Modernization of Railways Signaling System
- Supervised civil works for 5 administrative buildings, ensuring foundation stability and load-bearing compliance.
- Monitored concrete curing and steel reinforcement, preventing structural defects.
- Ensured railway safety standards were met, minimizing disruptions to active rail lines.
- Reduced construction errors by real-time quality checks.

Site Engineer

Concord for Engineering and Contracting | Ismailia, Egypt | July 2016 – Feb 2017

- **Project:** Ismailia Tunnels
- Managed stockyard operations, tracking cement, steel, and aggregate inventory.
- Scheduled material deliveries, preventing tunneling delays due to shortages.
- Trained 20+ workers in safety protocols.
- Assisted in tunnel lining inspections, ensuring waterproofing integrity.

Education

Bachelor of Civil Engineering

High Institute for Engineering and Technology | Cairo, Egypt | 2011–2016

- Grade: Good
 - Graduation Project: Structural Analysis (A+)
-

Certifications

- AutoCAD Certification (Egyptian Engineers Syndicate) 2014
 - SAP2000 Certification (Egyptian Engineers Syndicate) 2015
 - MS Office Proficiency (Egyptian Engineers Syndicate) 2015
-

Additional Information

- **Nationality:** Egyptian
 - **SCE ID:** 1091153
 - **Iqama Status:** Transferable (KSA)
-

Language

- **Arabic:** Native
 - **English:** Advanced
-

Memberships

- Egyptian Engineers Syndicate
- Saudi Council of Engineers
