

PROFILE

A motivated and detail-oriented Junior Mechanical Engineer with a strong foundation in mechanical systems design, analysis, and manufacturing processes. Proficient in CAD software (AutoCAD) and experienced in conducting simulations and technical evaluations. Eager to apply theoretical knowledge to real-world engineering challenges, collaborate with multidisciplinary teams, and contribute to innovative solutions in mechanical design and production. Excellent problem-solving skills, a passion for continuous learning, and a commitment to improving product efficiency and performance.

Jordanian having Iqama in Saudi Arabia

MUTAZ MASWDEH

Junior Mechanical Engineer

EDUCATION

Applied Science University – Mechanical Engineering
Oct 2019 – Sep 2024. Jordan - Amman
Graduation Project: Mapping Robot Using ROS2.

WORK EXPERIENCE

Waiting to have my starting career with your company!

SKILLS

- AutoCAD.
- Blender.
- CNC machining.
- 3D printing.
- HVAC Design & Systems.
- Safety & Compliance (OSHA standards).
- Knowledge of Industry Standards (ISO).

Iqama information

Iqama No: 228312232
Buraidah -Qassim
Transfere Iqama easily

Saudi Council of Engineering (SCE)

Membership no: 1131191
Membership Category: Engineer
Specialization: Mechanical Engineering
Membership valid until: 08 April 2027

Jordan Engineering Association

Membership no: 340615
Division: Mechanical ENG
Section: Mechanical ENG

Driving Licence

Having a Saudi driving licence and a Jordanian driving licence
