- Arabic

- Evaluate supplier performance based on quality metrics, timeliness, and adherence to contracts.
- Ensure that suppliers meet or exceed the organization's quality assurance expectations.
- Supervise the inspection and testing of procured goods to ensure they meet quality specifications.
- Implement corrective actions if products do not meet quality standards.
- Maintain detailed documentation related to procurement quality control processes, inspections, audits, and supplier performance.
- Ensure all procurement quality control documentation is up-to-date and accessible.
- Collaborate with the procurement team to ensure that quality specifications are well-defined and adhered to during the purchasing process.
- Facilitate communication between suppliers and the procurement department to resolve quality issues efficiently.
- Identify potential risks in the procurement process related to quality and take preventive or corrective actions to mitigate them.
- Ensure that all procurement activities comply with relevant regulations, standards, and organizational policies.

QA/QC INSPECTOR (CIVIL)

- Thoroughly study the construction drawings, project specifications, and relevant codes to understand the required standards for the project.
- Verify that the work is being completed in accordance with the approved design, material specifications, and other applicable regulations.
- Ensuring that all materials and workmanship comply with the project's plans and specifications.
- Checking technical data sheets for materials to ensure they meet project requirements.
- Perform tests on materials, such as compression tests for concrete, to ensure they meet the quality standards.
- Regularly visiting construction sites to inspect ongoing work and ensure compliance with quality standards.
- Documenting any deviations from the project specifications and ensuring corrective actions are taken.
- Coordinating with engineers and consultants to schedule and conduct inspections.
- Conduct final inspections to verify that the completed construction work meets all quality standards and specifications.
- Adhering to relevant standards and regulations, such as SAES, ASTM, ACI and AASHTO.
