## SKILLS

- Fast learning
- Problem Solving
- Crisis Management
- Creative Thinking
- Data Analysis
- Adaptability to Change

## TECHNICAL SKILLS

- Networking: Routing & Switching (Cisco, CCNA knowledge).
- Cloud: AWS (Cloud Practitioner level), Microsoft Azure (AZ-900 level).
- Programming: Python, C++, Java basics.
- Databases: MySQL, SQL basics.
- Operating Systems: Windows Server, Linux.

## LANGUAGES

- English (Fluent)
- Arabic (native)

## PROFILE

Graduate Computer Engineer with a strong passion for Cloud Computing, Network Engineering, and IT Infrastructure. Enthusiastic about solving problems, adapting to new technologies, and contributing to innovative digital solutions.

## Experiences

### Presales Intern – Solutions by STC 2025

- Assisted in preparing presales solutions for STC subsidiaries, STC Bank, Upsource, and other projects.
- Collaborated with the technical team to design IT and network solutions tailored to client requirements.
- Gained exposure to cloud services, network infrastructure, and solution design in enterprise environments.

### Projects

#### Gesture-Controlled Robot

- Developed a robot capable of translating sign language into voice signals and voice commands into sign language.

#### Date Recognition Machine Learning System

- Designed a machine learning model to classify and recognize different types of dates (agricultural product).

## EDUCATION

**Bachelor in Computer Engineering** King Saud University 2020-2025
