WORK EXPERIENCE

APR 2024

–
PRESENT

QC INSPECTOR | AYATI CONSTRUCTIONS ESTATE LLA, HYDERABAD

- Inspected excavation, PCC, RCC footing, slab formwork, rebar, concreting, and curing activities.
- Conducted cube testing, material checks (cement, aggregates, sand, water) as per IS standards.
- Ensured work compliance with method statements, quality plans, and safety requirements.
- Performed surveillance audits on site and material quality.
- Supervised shuttering removal, curing methods, and rejection of defective concrete.

JUL 2019

–
DEC 2023

SITE ENGINEER | AHMED SOLIMAN AL FAHHAD, RIYADH

Projects: Hospital, Residential & Commercial Office Buildings – Riyadh, July 2019 – 2021 August

1. Site Execution & Supervision

- Supervised renovation works including demolition, structural repairs, plastering, flooring, false ceiling, and painting.
- Ensured hospital and residential areas remained functional and safe during ongoing renovation works.
- Coordinated with subcontractors, labor, and vendors to ensure smooth site execution.

2. Planning & Coordination

- Prepared daily/weekly work schedules to minimize disruption to hospital operations.
- Coordinated with hospital administration, architects, consultants, and MEP (Mechanical, Electrical, Plumbing) teams for project alignment.
- Ensured all activities were carried out safely and hygienically, meeting hospital environment standards.

3. Quality Assurance & Compliance

- Verified construction materials to ensure compliance with hospital-grade standards (fire-resistant, non-toxic, hygienic finishes).
- Ensured renovation works complied with health & safety codes, building regulations, and hospital-specific standards.
- Conducted inspections for structural safety, waterproofing, and finishing quality.

4. Health, Safety & Environment (HSE)

- Implemented strict safety measures for workers, hospital staff, and patients during renovation activities.
- Monitored dust, noise, and waste disposal to prevent disturbance to hospital operations.
- Ensured proper barricading and safety signage in all working areas.

5. Documentation & Reporting

- Maintained site records including daily progress reports, material consumption logs, and labor deployment details.
- Prepared measurement sheets and assisted in billing and verification processes.
- Reported progress, delays, and technical issues to project managers and consultants.

6. Problem Solving & Modification

- Resolved on-site technical challenges and modified plans when required to meet project timelines and standards.

Project: Saudi Food and Drug Authority – Communication Offices, Dammam, Saudi Arabia

September 2021 – December 2023

- Contributed to the successful execution of communication office facilities by supervising site works and coordinating with consultants and contractors.
- Ensured compliance with Saudi building codes, SFDA specifications, and HSE standards across all project phases.
- Managed material approvals, vendor coordination, procurement, and documentation to achieve timely milestones and uninterrupted progress.

DECLARATION

I hereby declare that the above-mentioned information is true and correct to the best of my knowledge and belief.
