Drill and Blast Tunnelling - Adits, Shafts and Running Tunnels - Neom West

April 27, 2025, Frank was Ahmed's client

I have known Ahmed since he worked with SAJCO on the West MRT.

Ahmed is a dedicated engineer/construction manager who is knowledgeable about his role and also understands the processes involved in tunnelling, heavy civil engineering and bulk excavations.

He is good at working within a team but is also well capable to work under his own initiative.

He is a good communicator and well capable of planning and managing his works, and for the control of the team working under his responsibility.

Ahmed would be a great addition to any future projects.
