## PROFESSIONAL EXPERIENCE

**Hassan Allam Construction - KSA**

**November 2023 - Present**

**Surveying Manager**

*Project: Marina Hotel Phase 3 - AMAALA TRIPLE BAY*

My role as a survey manager includes all the listed below job responsibilities:

- Oversee and coordinate all on-site surveying activities to support construction and infrastructure projects.
  - Conduct precise land, topographic, and construction surveys as per project requirements.
  - Manage and lead a team of surveyors and technicians on-site.
  - Assign tasks, monitor performance, and provide technical guidance to ensure accuracy and efficiency.
  - Collect, process, and analyze field data to produce accurate survey reports, maps, and layouts.
  - Maintain detailed records of survey results and ensure proper documentation.
  - Work closely with project managers, engineers, and contractors to align survey activities with overall project goals.
  - Communicate survey findings and provide technical input during project planning and execution.
  - Address and resolve discrepancies or challenges encountered during surveying operations.
  - Identify potential risks and propose corrective measures to minimize delays.
  - Operate and maintain surveying instruments, including total stations, GPS systems, and levels.
  - Ensure that all equipment is calibrated and in good working condition for accurate results.
  - Ensure adherence to legal regulations, safety standards, and project specifications.
  - Conduct quality checks to verify the accuracy of survey data and layouts.
  - Prepare daily or weekly progress reports for stakeholders.
  - Provide updates on-site challenges, survey results, and project milestones.
