A recent Civil Engineering graduate from Taibah University with a GPA of 4.21, with experience in infrastructure projects. I have field experience in implementing stormwater drainage systems and asphalt road construction. Proficient in Microsoft Office programs, with basic knowledge of AutoCAD and Civil 3D. I am eager to develop my skills further and contribute to outstanding engineering projects.

## WORK EXPERIENCE

## Faisal Al-Alawy Contracting Est.

Oct 2024 - Present

Site Civil Engineer | Completion of Stormwater Drainage Network Implementation

- Supervising the implementation of stormwater drainage networks and ensuring compliance with technical specifications.
- Monitoring backfilling, asphalt works, and concrete pouring to ensure compliance with engineering standards.
- Implementing safety and occupational health procedures to maintain a secure work environment.
- Coordinating fieldwork with engineering teams and relevant authorities to ensure project progress according to schedule.

## Shibh Al Jazira Contracting Company

## Site Engineer Internship

Jun 2023 - Aug 2023

- Overseeing on-site execution to ensure compliance with technical specifications.
- Monitoring material quality and reviewing asphalt and soil test reports.

## EDUCATION

## Taibah University

Medina, SA

Bachelor's degree in civil engineering

GPA: 4.21/5

Aug 2024

## UNIVERSITY PROJECTS

## Capstone: Network Road Design in Urban Area

- Designed a road and roundabout network to improve traffic flow, enhance accessibility, and ensure pedestrian and cyclist safety. The project included excavation and backfilling calculations and detailed road design drawings.
- Software Used:** Civil 3D, Dialux Evo, Synchro Studio, Microsoft Office, Global Mapper

## SKILLS

- Civil 3D
- AutoCAD
- Microsoft Office
- Problem-solving
- Teamwork
- Time Management

## ADDITIONAL INFORMATION

- Languages:** Arabic, English
- Certifications:** Stormwater Drainage Networks Execution Course, Roadworks Execution Course
