- (+966) 554995938
- Mueezali97@gmail.com
- Nationality: Paksitani

Professional Summary

Mechanical Engineer and Workshop Engineer with over 5 years of experience managing Plant, Machinery, and Vehicles (PMV) in heavy construction, oil & gas, and industrial sectors. Skilled in overseeing large fleets of equipment including cranes, forklifts, excavators, bulldozers, and diesel-powered utility machines ensuring operational readiness, preventive maintenance, and timely repairs. Experienced in leading in-house workshops, supervising maintenance teams, and coordinating shutdown and turnaround projects with a focus on minimizing downtime and optimizing equipment availability. Proficient in maintenance planning, troubleshooting hydraulic and mechanical systems, operator training, and third-party certifications. Adept at maintaining compliance with HSE standards and client requirements, with strong abilities in spare parts procurement and stakeholder coordination.

Professional Experience

DESCON Engineering Qatar (Jan 2024 – June 2025)

(Engineer Equipment and Plant)

Job Responsibilities

- Participated in major industrial shutdowns of Qatar Fertilizer Unit 1,2 & 3 and Dolphin Energy Qatar Total Production Shutdown,
- Led equipment operations, managing a fleet of nearly 200 units including cranes (Liebherr, DEMAG, GROVE, Tadano), forklifts, boom trucks, trailers, and diesel-operated utility equipment such as generators, air compressors, and tower lights, ensuring 100% readiness within strict timelines.
- Managed mobilization and demobilization of heavy equipment and operators.
- Oversaw daily equipment operations including fueling, preventive maintenance, troubleshooting, and repairs to ensure continuous uptime during critical shutdown phases.
- Coordinated third-party inspections and certifications for heavy machinery and lifting equipment to ensure compliance with client and regulatory standards.
- Maintained accurate documentation of equipment status, maintenance activities, certifications, and client approvals to meet project quality requirements.
- Facilitated operator training programs and certifications, ensuring all personnel met safety and operational standards before deployment.
- Reduced downtime across all projects by rapidly diagnosing and resolving hydraulic, pneumatic, and mechanical faults in heavy and support equipment.
- Coordinated with external workshops and suppliers during major overhauls to expedite repairs and secure critical spare parts.

Blue Bricks Islamabad, Pakistan (Nov 2020 – Dec 2024)

(Engineer Workshop)

- Led a team in repair and maintenance of 150+ heavy equipment units at Blue World City project via an in-house workshop.
- Managed machinery including excavators, bulldozers, wheel loaders, motor graders, dump trucks,

concrete pumps, and transit mixers.

- Worked extensively on equipment from MAN, KOMATSU, HITACHI, ISUZU, CATERPILLAR, and DYNAPAC.
- Planned and executed daily maintenance and repairs coordinating closely with civil operations.
- Implemented preventive maintenance schedules, reducing unplanned breakdowns.
- Conducted inspections, diagnosed faults, and performed corrective repairs in-house.
- Troubleshoot engines, transmissions, hydraulic pumps, and jacks; managed major overhauls.
- Maintained detailed service, repair, and inspection records for fleet management.
- Ensured safe, compliant repair activities aligned with HSE policies.
- Raised purchase requisitions for spare parts to minimize equipment downtime.
- Provided on-the-job training and mentorship to improve team skills and workshop productivity
