Abdullah Alsarhani

Career Objective

Results-driven and detail-oriented Civil Engineer with over 5 years of experience in managing construction projects, ensuring compliance with design specifications, and delivering high-quality results on time and within budget. Equipped with a Master's Degree in Engineering Management. Proven expertise in project planning, risk management, and cost estimation, with a strong track record of completing projects such as the Dhahran Childhood Building Expansion and multiple renovation and maintenance projects ahead of schedule. Skilled in mentoring teams, implementing innovative solutions, and maintaining strict adherence to safety and regulatory standards. Seeking to leverage my technical expertise and leadership skills to contribute to the successful execution of large-scale construction projects while driving efficiency and client satisfaction.

Experience

Civil Project Engineer

Hemmah Arabia Real Estate Company | Feb 2025 - Present

- Oversee construction activities to ensure compliance with project specifications, quality standards, and regulatory requirements.
- Deliver high-quality outcomes to achieve client satisfaction and meet project objectives.
- Manage and coordinate the timely delivery of construction materials to the site, ensuring proper inventory and storage.
- Supervise and direct on-site workforce, including subcontractors and laborers, to ensure efficient project execution.
- Conduct regular inspections of site work to ensure adherence to safety protocols, quality standards, and design requirements.
- Prepare and maintain daily progress reports, site documentation, and as-built drawings.
- Collaborate with project managers, architects, and other stakeholders to resolve technical issues and ensure smooth project progression.
- Monitor project timelines and budgets, identifying and addressing potential delays or cost overruns.
- Implement and enforce safety regulations and procedures to maintain a safe working environment.

Senior Project Engineer

SRACO Company, Saudi Aramco | Dec 2024 - Feb 2025

- Led and managed a team of engineers in the successful execution of construction projects, ensuring alignment with project goals and timelines.
- Assigned responsibilities and tasks to engineers, ensuring efficient resource allocation and optimal team performance.
- Reviewed and approved Design Completion Certificates, ensuring compliance with project specifications and client requirements.
- Prepared weekly project updates to stakeholders, highlighting progress, challenges, and mitigation strategies.
- Approved project timelines and durations, ensuring adherence to schedules and minimizing delays.
- Supervised construction activities to ensure compliance with quality standards, safety protocols, and design specifications.
- Coordinated with cross-functional teams, including contractors, consultants, and clients, to resolve technical issues and ensure smooth project execution.
- Monitored project budgets and resources, identifying cost-saving opportunities and addressing potential overruns.
- Conducted regular site inspections to ensure work quality, safety compliance, and adherence to project plans.
- Mentored students and new employees, fostering professional growth and ensuring seamless integration into the team.

Project Engineer

SRACO Company, Saudi Aramco | Sep 2020 - Nov 2024

- Collaborated closely with stakeholders to gather project requirements, define objectives, and ensure alignment throughout all project phases.
- Developed and managed Work Breakdown Schedules (WBS) to organize tasks, allocate resources, and track project milestones effectively.
- Conducted risk identification and assessment, creating actionable risk response plans to mitigate potential challenges.
- Worked in monthly project update MPU.
- Negotiated cost estimates and variation orders with contractors, ensuring cost efficiency and project feasibility.
- Prepared detailed weekly technical reports, documenting progress, challenges, and solutions for stakeholder review.
- Developed project plans aligned with organizational goals and secured management approval for procurement processes.
- Led kick-off meetings with contractors to establish project requirements, timelines, and expectations.
- Negotiated bid prices for variation orders, ensuring cost-effectiveness and maintaining project budgets.
- Processed partial and final payments promptly, maintaining accurate financial records and ensuring contractor satisfaction.
- Coordinated with stakeholders to complete Mechanical Completion Certification (MCC) and ensure project handover.
- Forecasted project budgets and prepared schedules for ERC (Estimate to Complete) extensions to maintain financial and timeline compliance.

Internships

Civil Engineer

Dar Al Riyadh, Tamheer | Sep 2019 - Jun 2020

Education

Master's Degree in Engineering Management

King Fahd University of Petroleum & Minerals (KFUPM) | May 2024

GPA: 3.02 out of 4.00

Bachelor's Degree in Civil Engineering

Southern Illinois University | May 2019

GPA: 3.1 out of 4.00

Diploma in Instrumentation

Jubail Technical Institute | May 2013

GPA: 2.90 out of 4.00

Courses

- 30-hour General Industry Safety and Health | Occupational Safety and Health Administration (OSHA)
- Smart Work Ethics
- Communication in the Workplace
- Teamwork Skills

Projects

- Legacy Housing Project
- Aurum Housing Project
- SABIC New Headquarters, Jubail
- Expansion of Daycare Center, Dhahran
- Renovation of Building 3106
- Upgrade of Building 3060
- Renovation of Building 3040
- Renovation of Leadership Building
- Replacement of AC Units | Saudi Aramco Administrator Building

Achievements

- Developed and implemented a comprehensive work procedure guideline, streamlining processes and enhancing efficiency for engineering teams.
- Led a division in generating and executing innovative ideas, successfully achieving targeted goals and driving continuous improvement.
- Completed the expansion of the Dhahran Childhood Building, delivering the project on time and within budget.
- Delivered multiple renovation projects ahead of schedule, demonstrating exceptional project management and execution capabilities.
- Executed critical maintenance projects, including upgrading underground pipes and replacing waterproofing systems, ensuring long-term infrastructure reliability.
- created budget tracking sheets to track all project expenses.
