## PROFILE:

Civil Project Engineer with proven experience in high-voltage substation projects. Skilled in site execution, project planning, and supervision of foundations, duct banks, trenches, and control buildings. Experienced in managing resources, coordinating with consultants and stakeholders, monitoring progress, and preparing technical reports. Strong expertise in quality control, SEC/NG standards, and IFC drawings, ensuring projects are delivered on time, safely, and to specification.

## EDUCATIONAL QUALIFICATION:

- Bachelor of Civil Engineering

The University of Lahore-Pakistan

## MEMBERSHIPS / SKILLS / TRAININGS:

- A. Saudi Council of Engineering (Reg No.1014757)
- B. Saudi Electricity Company (SEC) Approved

## PROFESSIONAL EXPERIENCES:

Client: Saudi Electricity Company Riyadh (SEC)

Company: Enhancement Power International (EPI)

Duration: May 2024 to Present

Position: Project Civil Engineer

Project: Construction of New 3x30 MVA 33/13.8kV S/S-7239, Hotat Sudair.

## Responsibilities;

- ❖ Plan, execute, and monitor civil construction works in line with project specifications, drawings, and safety standards.
- ❖ Coordinate with consultants, contractors, and subcontractors to ensure timely and quality delivery of works.
- ❖ Supervise site activities including foundations, structural works, duct banks, cable trenches, control buildings, and infrastructure works.
- ❖ Prepare and review project schedules, method statements, and work progress reports.
- ❖ Ensure compliance with QA/QC standards and resolve technical/site issues.
- ❖ Monitor resource allocation, materials, and equipment to optimize productivity and control costs.
- ❖ Support project management in budgeting, invoicing, and client communication.
- ❖ Ensure adherence to HSE (Health, Safety & Environment) policies at all times.
- ❖ Assist in preparing as-built drawings and handing over documentation.

**Client:** Saudi Electricity Company Riyadh (SEC)  
**Company:** Enhancement Power International (EPI)  
**Duration:** From (DEC 2020 to April 2022)  
**Position:** QA/QC Civil Engineer.

❖ **Duties and Responsibilities:**

- ❖ Inspected and supervised civil works including excavation, backfilling, concrete placement, structural activities, finishing, and roadworks to ensure compliance with project specifications.
- ❖ Prepared and reviewed material submittals, RFIs, as-built drawings, and maintained QA/QC documentation and logs.
- ❖ Monitored batching plant operations to verify adherence to approved concrete mix designs and quality standards.
- ❖ Compiled and submitted daily, weekly, and monthly QA/QC progress and compliance reports for management and client review.
- ❖ Implemented and tracked corrective and preventive actions (CAPA) to address non-conformities and site issues.
- ❖ Coordinated with consultants and stakeholders during inspections of foundations, structural works, and blockwork, plastering, and finishing activities.
- ❖ Supported the Project Manager in ensuring quality workmanship, specification compliance, and timely execution of civil works.
- ❖ Participate in project reviews to identify improvements in QC procedures and practices for future projects.

**Company** China Communication and Construction Company  
**Duration** from (May 2018 to March 2020)  
**Clients** NESPAK & NHA  
**POSITION** Site Civil engineer

❖ **Duties and Responsibilities:**

- ❖ Supervised and coordinated site execution activities, including duct bank installation, structural concrete works, and boundary wall construction, ensuring compliance with project specifications, quality standards, and schedule requirements.
- ❖ Served as a key liaison between site teams, consultants, and vendors to resolve technical issues, interpret design drawings, and implement effective construction solutions for uninterrupted project progress.
- ❖ Managed site resources by monitoring material inventories, optimizing manpower allocation, and enforcing strict adherence to health, safety, and environmental (HSE) protocols across all construction phases.
- ❖ Supported project close-out by preparing comprehensive as-built drawings, documentation, and quality control records, facilitating final inspections, approvals, and successful client handover.

## **STRENGTHS:**

- ❖ Team oriented, competitive and excellent communication & interpersonal skills.
- ❖ Effective at time management and prioritizing tasks to achieve deadlines.
- ❖ Self-motivated and Tendency to perform well under stress and tight schedules.
- ❖ Professionalism and strong work ethics.
- ❖ Determination and persistence.
