Major Task Performed in Projects

- Directed planning, execution, and monitoring of residential, commercial, hospitality, healthcare, educational, industrial, and infrastructure projects, ensuring on-time and within-budget completion.
- Led cross-functional coordination with clients, consultants, subcontractors, suppliers, and authorities to resolve technical challenges and maintain seamless workflow continuity.
- Managed project schedules, procurement plans, and budgets, and implement corrective actions.
- Oversaw quality control processes, including ITPS, WIR/MIR approvals, MOS, inspections, and adherence to international standards, achieving zero major NCRs and ensuring superior project handovers.
- Enforced rigorous HSE protocols and proactive risk assessments, maintaining accident-free construction sites and high safety compliance.
- Supervised diverse construction works—high-rise towers, roads, utilities, villas, hotels, hospitals, educational facilities, and heritage restorations—ensuring precise execution of engineering drawings and specifications.
- Administered invoicing, subcontractor payments, procurement activities, and material delivery tracking, ensuring smooth financial and operational workflows.
- Implemented snag list closures, final inspections, and as-built documentation to achieve timely authority approvals and client satisfaction during project handovers.
