

Ibrahim Mohamed Elsayed Shalaby

(CIVIL ENGINEER)

| Egyptian - 0575498908 - engibrahimshalaby511@gmail.com |

BRIFE SUMMARY:

Civil Engineer with over 4 years of experience in engineering supervision and project management, specialized in structural, architectural, and infrastructure works. I have strong expertise in quality control, reviewing and approving shop drawings and designs, monitoring work progress, and supervising contractors to ensure compliance with approved specifications and codes. I possess excellent problem-solving skills on site and the ability to coordinate between various disciplines (architectural, structural, electrical, and mechanical). In addition, I am experienced in reviewing and approving materials and preparing technical progress reports. Proficient in AutoCAD, Primavera P6, and MS Office, with solid capabilities in schedule management, quantity surveying, and preparing payment certificates. I have worked on major residential, commercial, and infrastructure projects with both governmental and private entities, and I am always committed to achieving the highest quality standards and delivering projects on time.

EDUCATION:

M.H.I University, Giza.

- Bachelor's degree in engineering
- Department: Civil Engineering
- Graduation Project: Project management
- Grade: Good.
- Grade: Excellent.

PROFESSIONHAL EXPERIENCE:

COMPANY NAME: International Development Engineering Consultancy Company, (ICON)

Riyadh. KSA

Project of 10 Residential Towers

(MAY 2024 - Until now)

A civil engineer with extensive experience in the design and supervision of construction and residential projects. Currently working at Al Taamir Al Dowali Engineering Consultants, as part of the supervision team for the Qiran Housing Project (235), owned by the National Housing Company and developed by Al Ajlan Riviera. The project consists of 10 multi-story residential towers and 56 commercial shops, along with complete site infrastructure works, including roads, pedestrian walkways, parking areas, retaining walls, green spaces, and utility networks. I strive to deliver optimal engineering solutions in accordance with approved standards and the Saudi Building Code, ensuring quality and efficiency in execution.

Consultant Civil Engineer:

1. Design Phase

- Reviewing and approving engineering drawings and designs.
- Ensuring compliance with local and international engineering codes and standards.
- Providing technical advice to optimize design and reduce costs.

2. Construction Phase

- **Supervising on-site work to ensure compliance with specifications.**
- **Approving construction materials after quality verification.**
- **Attending coordination meetings with contractors and clients.**
- **Issuing regular technical progress reports.**
