Objective

Project Engineer with 2 years of experience in managing engineering projects. Skilled in coordinating cross-functional teams, ensuring safety and quality standards, and delivering projects on time. Proficient in AutoCAD, MS Project, and site supervision. Highly organized and passionate learner. I know what it means to be a part of a team and I can arrange my time to fit what I need. Interested in getting new experiences that give me knowledge and strengthen my abilities. Seeking a challenging role in a reputable company to prove my competence and take part in the company's growth.

Education

Bachelor's Degree in Mechanical Engineering

Assuit University, Egypt

2017 – 2022

Graduation project: Trajectory Planning Manipulator for Industrial Applications

Graduation project grade: Excellent

GPA: good

Professional Experience

Construction Project Engineer

Petrojet, Egypt

March 2024 – March 2025

- Work as field construction engineer at Assiut Hydrocracking Complex "AHC"
 - Supervise site operations and coordinate with contractors, suppliers, and consultants
 - Prepare project schedules, monitor progress, and report to the project manager
 - Ensure compliance with project specifications, safety regulations, and quality standards
 - Conduct regular site inspections and resolve technical issues on-site
 - Prepares technical documentation for material requests
-

Trainings & Internships

Mechatronics Engineer Trainee

LEONI, Egypt

March 2022

- Briefing on manufacturing process of wires and cables systems

Embedded System Internship

Information Technology Institute “ITI”, Egypt

August 2021 – September 2021

- C Programming
- Embedded System Concepts
- AVR Interfacing & Software Testing
- Graduation Project was smart library

Head of Media

Engineering Student Club “ESC” Student Activity

December 2019 – October 2021

- Manage all social media platforms and cover media of offline events
 - Have regular meetings with team members to discuss our work plans
-
-

Languages

- Arabic: native
 - English: advanced
-
-

Soft Skills

- Project Coordination & Scheduling
 - Site Supervision & Execution
 - Technical Documentation & Reports
 - Health & Safety Compliance
 - Strong Leadership & Problem-Solving
 - Adaptable, flexible, and quick to learn new skills
-
-

Technical Skills

- Mechanical systems
 - Hydraulic systems
 - Mathematical modeling
 - Schematics
 - AutoCAD & MS project
 - MS Office “pp, excel, word”
-
-
