

# ABDUL WAHAAB

## CIVIL ENGINEER

Accomplished Civil Engineer with over 10 years of progressive experience in the construction industry. Proficient in overseeing site operations, coordinating with diverse teams and ensuring adherence to safety protocols. Skilled in project planning, cost control, quality assurance, quality control and site engineering across diverse mega infrastructure and high-rise residential projects in Saudi Arabia and India.

Strong problem-solving abilities and excellent communication skills. Committed to delivering projects on time and within budget while maintaining high standards of workmanship. Proven experience in managing construction projects, showcasing a track record of successful on-site coordination & execution. Managing end-to-end inspection protocols, and driving compliance with international construction standards such as ASTM, ACI. Expertise in structural inspection and work, MEP coordination, and NCR/CAR management, with a proven track record of reducing non-conformities by 30% through proactive surveillance and root cause analysis. Adept in engineering documentation, material testing procedures, and multi-disciplinary stakeholder coordination, ensuring timely approvals and seamless project delivery.

## WORK EXPERIENCE

### Site Engineer

Taj Al Azizia, Riyadh, Saudi Arabia

Mar 2021– Present

#### Summary:

An experienced Civil Site Engineer currently working with Taj Al Azizia for Riyadh metro line 3, specializing in ensuring construction quality, material compliance, and site inspections across mixed use development and infrastructure project and landscape development projects. Demonstrated expertise in implementing quality management systems, monitoring non-conformance reports (NCRs), and leading MEP and landscape coordination aligned with client requirements and international standards.

#### Key Responsibilities:

- Site Management:
  - Supervising & coordinating subcontractors, vendors on site & ensure quality compliance across all phases of construction including civil, architectural, MEP, and landscaping works.
  - Implementing and enforcing safety protocols to create a secure working environment for all on-site personnel.
  - Overseeing day-to-day construction activities, including site inspections, quality control, and progress monitoring.
  - Collaborating with clients, architects, engineers, and consultants to ensure project requirements are met.
  - Managing and maintaining site equipment, machinery, and materials.
  - Implementing and enforcing safety protocols to create a secure working environment for all on-site personnel.
  - Addressing technical issues and providing solutions in real-time.
- Landscape & Softscape:
  - Reviewed horticultural materials, planting schedules, and mock-ups before full-scale implementation.
  - Monitored softscape activities such as tree planting, turf laying, and shrub installations, ensuring conformance with approved samples, and horticultural guidelines.
  - Ensured correct implementation of irrigation networks, including drip lines, pop-up sprinklers, control valves, and pump systems.
  - Supervised hardscape works like interlock paving, kerbstone installation, garden furniture installation, and perimeter edge treatments.
- Coordination with Stakeholders:
  - Acted as liaison between client, consultant, and contractor for landscape and irrigation-related inspections and approvals.
  - Collaborated closely with the landscape architect, horticulturist, and subcontractors to ensure compliance with landscape design intent and plant selection criteria.

## AREAS OF EXPERTISE

- Construction Management
- Site Supervision
- Quality Control
- Material Testing
- MEP Coordination
- NCR & CAR Management
- Project Specifications Compliance
- Internal Audits
- Risk Mitigation
- Reinforcement & Concreting
- Waterproofing Systems
- Shuttering & Finishing Works
- Third-Party Testing Coordination
- Technical Reporting
- Team Leadership & Training
- AutoCAD
- MS Office (Excel, Word, PowerPoint)
- ISO 9001:2015 Standards
- Client & Consultant Liaison
- Construction Safety Compliance

## PERSONAL DETAILS

Nationality: Indian

Date of Birth: 21 March 1992

Marital Status: Single

Religion: Islam

Driving License: Valid Indian Driving License

Iqama Status: Transferable Iqama  
/Joining immediately

## Site Engineer

S.D. Singh Constructions, Noida, India

*Apr 2019 – Feb 2021*

### Summary:

Skilled & focus on managing site operations for construction.

Responsible for ensuring quality across multiple construction phases through meticulous inspections, material testing, and effective client coordination.

### Key Responsibilities:

- **Site Supervision & Inspection:**
  - Supervised site work activities, ensuring that construction processes adhered to established standards.
  - Overseeing & supervising a team of workers & contractors.
  - Coordinating with various departments and stakeholders to ensure project deadlines are met.
  - Conducting regular meetings with the project team to ensure everyone is aligned with project goals and milestones.
  - Ensuring that all materials met the project requirements and international standards before use.
- Coordinated third-party testing and verified that test results were in line with project specifications.
- **Quality Assurance Planning:**
  - Ensured that quality control procedures were effectively implemented for each construction stage, from earthworks to finishing.
- **Risk & Compliance Management:**
  - Ensured adherence to safety protocols and environmental standards during construction.
  - Actively participated in regular quality audits to assess construction quality and site conditions.

### Achievements:

- Ensured the timely completion of work without any delays caused by safety or quality related issues.
- Significantly improved material compliance rates by introducing a streamlined inspection.

## Site Engineer & Civil Inspector

S.R. Enterprises, Noida, India

*Jan 2015 – Mar 2019*

### Summary:

Expertise in managing construction sites, ensuring quality standards, and overseeing multi-discipline teams to deliver large-scale projects. A strong background in material verification, quality audits, and ensuring full compliance with engineering specifications.

### Key Responsibilities:

- Overseeing day-to-day construction activities, including site inspections, quality control, and progress monitoring.
- Implementing and enforcing safety protocols to create a secure working environment for all on-site personnel.
- Overseeing day-to-day construction activities, including site inspections, quality control, and progress monitoring.
- **Quality Control Audits & Inspections:**
  - Led internal quality audits for construction activities to ensure strict compliance with contract specifications.
  - Conducted detailed site inspections and material verifications, ensuring adherence to design specifications.
- **Material Quality & Testing:**
  - Coordinated third-party laboratory testing to validate the quality of construction materials and components.
  - Oversaw the inspection and acceptance of construction materials, including concrete and steel reinforcement.
- **Documentation & Non-Conformance:**
  - Managed quality control documentation, including daily logs, test reports, and non-conformance reports (NCRs).
  - Ensured corrective actions were taken based on NCRs, maintaining records of actions taken and outcomes.
- **Collaboration & Reporting:**
  - Coordinated with engineers, contractors, and subcontractors to ensure construction quality was maintained.
  - Submitted weekly progress reports, highlighting quality assessments and compliance issues.

### Achievements:

- Played a key role in ensuring the on-time delivery of a 12-story residential project, maintaining zero safety incidents during construction.
- Contributed to process improvement efforts, which resulted in reducing project delays.

## EDUCATION

### **Post Graduate Diploma in Project Management**

Maharashtra Institute of Technology – Pune, India, Graduated: 2020

### **Bachelor of Technology in Civil Engineering**

Maharshi Dayanand University, Haryana, India

Graduated: 2015

## KEY PROJECTS EXECUTED

### **Mixed-Use Development & Infrastructure Project – Taj Al Azizia**

**Role:** Site Engineer | **Location:** Riyadh, KSA | **Duration:** March 2021 – Present

- Delivered quality oversight for all civil works, including landscape, structural concreting, waterproofing and material compliance. Worked with client representatives and consultants to ensure zero major non-compliance.

### **Residential Apartment – S D Singh Construction Company**

**Role:** Site Engineer | **Location:** Noida, India | **Duration:** April 2019 – February 2021

- Oversaw inspections, quality checks, supervision of work and material check for all construction activities.
- Ensured coordination between civil sub-contractor consultant & other team members to meet client expectations.

### **Residential Tower – S.R. Enterprises**

**Role:** Site Engineer & Civil Inspector | **Location:** Noida, India | **Duration:** Jan 2015 – March 2019

- Executed comprehensive site quality control, site supervision from earthworks to finishing stages, ensuring adherence to project specs and safety norms.
- Handled all documentation, daily progress report, internal audits, and subcontractor coordination during project life cycle.

## CERTIFICATIONS & TRAININGS

### **ISO 9001:2015 – Quality Management System Internal Auditor**

- Training covered internal audit planning, implementation, and NCR resolution techniques.
- Gained practical experience in executing internal QA/QC audit programs aligned with ISO standards.

### **Health, Safety & Environmental (HSE) Training – Basic Site Safety**

- Familiar with risk assessments, emergency preparedness, and compliance with occupational safety standards.

### **AutoCAD for Civil Engineering Applications**

- Hands-on knowledge of technical drawings, blueprint reading, and design coordination for construction.

### **Post Graduate Diploma in Project Management (2020)**

- Specialization in project lifecycle planning, risk control, and cost optimization for construction projects.

Dear Hiring Manager,

In the ever-evolving world of construction, where precision, planning, and quality shape the skyline of tomorrow, I take pride in being a professional who ensures that each project not only stands tall—but stands flawlessly compliant, safe, and built to last. With over a decade of progressive experience as a Civil Site Engineer, I am excited to bring my commitment to excellence, deep technical acumen, and a record of delivering zero-defect projects to your esteemed company.

Throughout my 10-year journey across Saudi Arabia and India, I have played a pivotal role in executing high-rise towers, infrastructure, and roadways. I have developed core proficiencies in material inspection, supervision of work, all while fostering collaborative environments across engineers, clients, and consultants. At Taj Al Azizia in Riyadh, I am proud to have led quality operations that significantly reduced non-conformities and improved site inspection

What distinguishes me is not only my ability to inspect and report—but to proactively lead the work quality culture within the project team.

I would welcome the opportunity to bring this experience. I am currently based in Riyadh with a transferable Iqama and available to join immediately. I look forward to the chance to speak with you further.

Yours sincerely,  
Abdul Wahaab
