

Faiyazur Rahman Ansari

SCE (Saudi Council of Engineer) Approved

Membership No. - 985783

Senior Civil Engineer

A results-driven civil construction professional with **9+ years of experience** in delivering successful civil construction projects, specializing in road construction and associated structural works. Proven track record of managing complex projects, ensuring timely completion, and maintaining high-quality standards.

To seek and full time position that offers professional challenges utilizing interpersonal skills, excellent time management and problem-solving skills.

Work History

2023-07

Senior Civil Engineer

2025-06

*AIED DAHIMAL-HAMOUD & PARTNERS
TRADING & CONTRACTING CO., CJSC,(AiedCo)*
NEOM City, Saudi Arabia

During this period, I was responsible for the operation and maintenance and engineering & construction of new work order of key roads within NEOM City, including:

- Highways No.**392** (AlSharaf-Tabuk Road)
- Highway No. **8784** (Sharma-Tabuk Road)
- **Coastal Road** along the Red Sea(Magna)
- Highway No. **8746** (Al Bada City-Magna)
- Highway No.**394** (H55-Sheikh Hameed)
- Al-Osailah Road (**NRC-03,05,09,11,13**)
- Jabal al Lawz Road(**Trojena Project**)
- Highway No. **80** (Tabuk-Duba Road)
- Spine Construction Road (**The Line**)
- Highways No. **55** (Al Muaileh-Haql)
- **Oxagon** Approach Road
- **Sindala** Approach Road

Key Contributions & Responsibilities:

- • Ensured compliance with NEOM's safety protocols, industry standards, and regulatory requirements to maintain a safe working environment.
- Oversaw preparation of subgrade, and the sequential laying of sub-base, base, and wearing courses across multiple locations.
- Oversaw preparation of subgrade, and the sequential laying of sub-base, base, and wearing courses across multiple locations.
- Tackled rutting in wearing courses on several roads—most notably on Spine Construction Road, H55, and H8784—by milling up to 150 mm over approximately 50 km using Wirtgen milling machinery up to width of 7 m, followed by reapplication of multi-layer wearing courses.
- Maintained cleanliness of the entire road surface, carriageways, and 100 m from the centerline in both directions, along with ensuring upkeep of signage (small and large).
- Installed necessary signboards (e.g., precautionary, informational, regulatory), road barriers (rolling coastal barriers, RCC New Jersey barriers, metal beam crash barriers with T1 and T2 terminals), and cat's eyes (reflectors) on divided and undivided carriageways.
- Executed road marking operations, including centerline (white) and pavement edge (yellow) painting.

- Conducted routine and ad hoc site inspections to monitor progress, proactively identify issues, and implement corrective actions to ensure maintenance and project objectives were met.
- Conducted comprehensive analysis of road conditions, identified maintenance needs, and devised cost-effective, safety- and durability-focused solutions.
- Reported regularly: daily, weekly, monthly, and annually, offering detailed performance insights and status updates.
- Identified and promptly repaired potholes and cracks, and performed grading, watering, and rolling operations along the full stretches.
- Implement routine clearing of sand accumulation due to wind and sandstorms.
- Coordinated with emergency response teams and contractors to **safely remove accident-involved vehicles from roadways**, restoring safe traffic flow in a timely and professional manner.
- Accidental vehicle was removed using a combination of **Wheel Loaders, JCB machines, and Hydraulic Cranes**, ensuring rapid road clearance and restoration of traffic flow with minimal delay.
- Upheld all NEOM safety protocols and environmental regulations, ensuring a secure and compliant work environment.
- Cleaning sand accumulated on roads using equipment such as Skid Steer Loaders, Road Sweepers, Broomers, Backhoe Loaders, and Wheel Loaders, depending on the volume of sand present.

2020-12 -
2023-07

Highway Engineer

GHV India Pvt Ltd, Kota, Rajasthan, India

Key Contributions & Responsibilities :-

- Working as a **Highway Engineer**
- We are constructing the India's 1st 8-lane and Asia's longest (1350 Km) Expressway in terms of width 100 m (ROW) and Asia's Longest Expressway
- Doing the entire process from starting period of projects such as C&G, OGL Recording, Soil Dumping, Embankment and Subgrade preparation with proper compaction, laying of crust layer such as GSB/CTSB, WMM, DBM, SMA with proper compaction and other miscellaneous works.
- To enhance the strength of soil of Subgrade Top Layer, we used Lime-Soil stabilization technique so that it can improve its properties like maximum dry density, bearing capacity etc.
- Engaged in Lime-Soil Stabilization works done by the WIRTGEN WR 240 (Soil stabilizer and Cold Recycler) machine followed by Lime Spreader Truck, Water tanker attached to Soil stabilizer (WR 240), Sheep footed roller for compaction and grader for finishing blade and at last Rolling by Single Drum Vibratory Roller.
- The width of Main Carriageway for Lime-Soil Stabilization works is 20 m upto 250 mm thickness and completed about 20 km in length
- Work as a Highway Engineer, who is responsible for doing a work in a quality manner & in a stipulated time as order by a higher authority for completing
