

C.V

Personal information

Name: Taha Hussein Ali Almota'a

Nationality: Yemeni

Date of Birth: 26/09/1978

Martial Status: Married

Place of Birth: Yemen – Sana'a

Address: Sana'a – Zobairee Street

Current Address: KSA / Jazan - Sabya

Email Address: tahahusseinali@gmail.com

Mobile Phone: (KSA / 00966540872271 - YEM / 00967770002025)

Academic qualification:

- BSc in Civil Engineering - Sudan University of Science & Technology 2009.

Abilities & Skills:

Road construction & Maintenance:

- Supervision & execution of roads works consisting of Embankment, sub-grade – Sub base, base course, Asphaltic layers, road signals and road marking.
- Supervision & execution of road draining system consisting of pipe culverts, Box culverts , Irish crossing and slopes protection.
- Supervision & execution of steel and concrete bridges consisting of piling works , sub structures and super structures
- Supervision of concrete pre-stressing system.
- Checking & revision of project submittals , project time schedule, methods statements, quality control plans, shop drawings and material submittals according to AASHTOO, BS, and KSA. Standards
- Checking and execution of survey works
- Studying of project opticals (e.g. water lines, electric poles ,...etc) and gives the concern authorities solutions for re-locating or removing.
- Full Road Design work (Plan, Profile & cross section)
- Quantity calculation for all type of work included in road projects.
- Inspecting Equipment and Material — to identify the cause of errors or other problems or defects.
- Controlling Machines and Processes — Using either control mechanisms or direct physical activity to operate machines or processes.
- Getting Information — Observing, receiving, and otherwise obtaining information from all relevant sources.
- Communicating with Supervisors, Peers, or Subordinates — Providing information to supervisors, co-workers, and subordinates by telephone, in written form, e-mail, or in person.

- Estimating the Quantifiable Characteristics of Products, Events, or Information — Estimating sizes, distances, and quantities; or determining time, costs, resources, or materials needed to perform a work activity.
- Identifying Objects, Actions, and Events — Identifying information by categorizing, estimating, recognizing differences or similarities, and detecting changes in circumstances or events.
- Making Decisions and Solving Problems — Analyzing information and evaluating results to choose the best solution and solve problems.
- Evaluating Information to Determine Compliance with Standards — Using relevant information and individual judgment to determine whether events or processes comply with laws, regulations, or standards.
- Organizing, Planning, and Prioritizing Work — Developing specific goals and plans to prioritize, organize, and accomplish our work.
- Performing for or Working Directly with the Public — Performing for people or dealing directly with the public.
- Monitor Processes, Materials, or Surroundings — Monitoring and reviewing information from materials, events, or the environment, to detect or assess problems.
- Scheduling Work and Activities — Scheduling events, programs, and activities, as well as the work of others.
- Updating and Using Relevant Knowledge — Keeping up-to-date technically and applying new knowledge to our job.
- Establishing and Maintaining Interpersonal Relationships — Developing constructive and cooperative working relationships with others, and maintaining them over time.
- Documenting/Recording Information — Entering, transcribing, recording, storing, or maintaining information in written or electronic form.
- Developing Objectives and Strategies — Establishing long-range objectives and specifying the strategies and actions to achieve them.
- Training and Teaching Others — Identifying the educational needs of others, developing formal educational or training programs or classes, and teaching or instructing others.

- Assisting and Caring for Others — Providing personal assistance, medical attention, emotional support, or other personal care to others such as co-workers.
- Coordinating the Work and Activities of Others — Getting members of a group to work together to accomplish tasks.
- Interpreting the Meaning of Information for Others — Translating or explaining what information means and how it can be used.
- Developing and Building Teams — Encouraging and building mutual trust, respect, and cooperation among team members.
- Coaching and Developing Others — Identifying the developmental needs of others and coaching, mentoring, or otherwise helping others to improve their knowledge or skills.
- Analyzing Data or Information — Identifying the underlying principles, reasons, or facts of information by breaking down information or data into separate parts.
- Resolving Conflicts and Negotiating with Others — Handling complaints, settling disputes, and resolving grievances and conflicts, or otherwise negotiating with others.
- Monitoring and Controlling Resources — Monitoring and controlling resources and overseeing the spending of money.
- Guiding, Directing, and Motivating Subordinates — Providing guidance and direction to subordinates, including setting performance standards and monitoring performance

Other skills:

Well skilled in computer applications :

- Microsoft office package
- Auto Cad
- Land desktop
- Civil 3D

Languages :

- Arabic (Native)
- English (excellent speech &written)

Years Of Experience :

- 15 YEARS(After graduate)
- 2 YEARS (Before graduate)

Job Situation In KSA :

Working with Al-Ayuni Investment & Contracting Company at the following projects:

- Project Manager in Qaseem / Alryhad Railway project CTW400in Boraydah portion.

- Good chance to have experience in Railway projects.

- Project Manager in Al-farsha Alkaya'a Hemayat up to Asfal Rdoom/AlBoka'aJabel Aden&TVTower Road (Phase 1)project , in Assir Region (3 links)

- I handle this project from the beginning , I discover that the designer who design the project make many mistakes due to working from Google earth without taking any coordinates from the sight , the road alignment was not serving the citizens and they have to leave their houses due to the bad alignment and profile .

- By revising the profile also many mistakes for eg : excavation in wadi area etc..

- Due to the bad design we started to find a proposal alignment trying to avoid the obstructions and to serve most of the citizens and to be in the limit of our scope of work

- Last position was in the Operation and maintenance and cleanliness of roads Sabya/ Shaqeeq contract number (902) as a site Engineer and Many times controlling all the project due to the lack of the Project Manager and Safety Engineer

-The benefit of working in maintenance projects already mentioned in the abilities & skills.
